**Instructions:**

1. Enter in your program's PLOs.
2. For each academic year, select at least one PLO to assess.
3. Use the drop-down menu in the corresponding cell to indicate the timeline for assessment for each PLO. You should allow one year for planning and data collection (planning in Fall and data collection in Spring), one year for analyzing data and coming up with an action plan, and one year for closing the loop (following up to see whether the action plan is being implemented).
4. Using your curriculum map, select at least one course that aligns with the PLO to use for assessment.
5. Select a means of assessment- an assignment or exam or common rubric for use in assessing the PLO.
