RE: Change in Course Description for Introduction to Practical Mathematics for Today's World (MAT 800)

The Department of Mathematics & Computer Science is proposing a change in Course Description for Practical Mathematics for Today's World (MAT 800):

FROM:

Critical-thinking and mathematical skills useful in making informed decisions on many aspects of modern life involving quantitative concepts. Topics include logical analysis and inference, mathematics of finance, statistical reasoning and probability.

TO:

Critical-thinking and mathematical skills useful in making informed decisions on many aspects of modern life involving quantitative concepts. Topics include logical analysis and inference, mathematics of finance, statistical reasoning and probability.

Students who have completed MAT 08A0 will **not** receive credit for this course.

This course is intended for Non-STEM majors. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

Rationale for Change: There is sufficient overlap of curricular topics to preclude the granting of credit twice.
