This course will help students develop skills through a widely-used Electronic Health Records (EHR) software. Students will learn the basics of entering demographic and health information; Clinical Decision Support Tools, Physician Order Entry Screens, and Electronic Prescribing. In addition, CTF 89 teaches students how to define, formulate and interpret health information from an actual EHR; as well as arrange and create detailed workflows. Time will also be allotted to give students practice for the NHA CEHRS examination.

Note: Tuition includes e-Learning materials, online classroom access and live support chat.

Prerequisites: Computer proficiency and some experience in office administration. Computer proficiency will be assessed.
