Sun 9am-3:30pm
Oct 7-Dec 16

Using Electronic Health Records (EHR) software, you will learn the basics of entering health information; Clinical Decision Support Tools, Physician Order Entry Screens, and Electronic Prescribing. You will also learn how to define, formulate and interpret health information from an actual EHR; as well as arrange and create detailed workflows. Time will also be allotted to practice for the NHA CEHRS examination.

Prerequisites: Computer proficiency (will be assessed) and some experience in office administration.

All course titles with a (T) require a textbook.
