A College For Kids **MORNING ONLY** program is also being offered.  
Call (718) 368-5052 for more information.

# CFK SUMMER 2009 • COURSE DESCRIPTIONS

## **BASKETBALL**

Learn basic strategies, regulations of the game and various offensive and defensive maneuvers. By the end of the course, you will be dribbling and jump-shooting like a pro!

## **CARTOONING**

Students will create their own characters and illustrate their own stories in this course, where the student is the artist and author. Draw colorful and eye-catching recreations of your favorite cartoon characters. Tell stories of your own with cartoons. Have fun and develop your drawing and storytelling skills.

## **CHESS**

Get a jump on the fun and excitement of chess! We provide tutorials to improve your strength, as well as worksheets to practice on and learn from.

## **CREATIVE WRITING**

Let your imagination take you to far-away lands, underwater adventures while you write as you've never written before. Develop writing skills in multiple genres (through readings, class discussions, and writing assignments). Students will write autobiographies and author a poetry book with five types of poems.

## **FISHING**

Learn the basics of this exciting sport. Instruction will be given in identifying different types of fish, their habitats and favorite foods. You will also learn how to clean and prepare fish for cooking. Though bait will be provided, students are expected to bring fishing rods and reels.

## **FORENSIC FUN**

An elementary introduction to detective science involving riddles, crime-solving, case-breaking and crook-catching activities. Learn how detectives and forensic experts use science to do their jobs through a variety of simple experiments; learn to take and analyze fingerprints, detect counterfeit money and more.

## **FUN WITH MAGIC**

Develop your skills as a magician. Entertain your family and friends with card tricks, disappearing coins, balloons, and wiggling ropes. Learn the secrets of the masters of magic.

## **GRAPHIC DESIGN**

Learn the basic principles of design, from packaging design to design of fonts and lettering. Explore line, shape, color, texture and space.

## **LEGO ARCHITECTS**

Let your imagination guide you as you build planes, cars, boats, buildings, or create your own animal or monster. Pair up with a friend to build a bridge or tower. This class will encourage your creative juices to flow, while eye-hand coordination, and dexterity.

## **Mad Scientist**

The science of having fun with projects for kids range from making glue and invisible ink to slime and air fresheners. Fun, exciting, new projects!

## **MARINE MONSTERS**

Learning about fish, coral reefs, the deep sea and the ocean; many aspects of the marine environment are explored. Students learn to identify fish by their feature as well as learn about the beauty and mystery that lies beneath the sea.

## **MASTER CRAFTERS**

Make interesting projects that help develop creativity, coordination, observation, and imagination. The projects will involve cutting, sticking, crumpling, painting, drawing, and modeling.

## **MATH GAMES**

Improve your math skills with games, puzzles and brain benders. Fun games teach addition, subtraction, multiplication, division, and elementary algebra.

## **PIANO**

Learn to play the piano. You will: learn the keyboard, be introduced to reading music, develop music appreciation and improve manual dexterity. Play "Chopsticks" or "Happy Birthday" for your family.

## **READING FOR FUN**

Develop your skills through reading songs, chants, poems, books, and playing meaningful, interactive games and activities. Students will learn reading readiness skills through techniques like rhyming, blending, substitution, isolation of sounds, vocabulary building, comprehension skills, and much more. In addition, students will learn reading skills to become a more effective and confident reader and speller.

## **SELF DEFENSE**

Develop skills and enjoy activities useful for self-defense. Wear loose, comfortable clothing as this is a contact sport.

## **SOCCER**

Learn basic soccer skills, while having fun. Begin each class with simple warm-ups and stretching exercises. Practice kicking, trapping and passing the ball, as well as heading, dribbling and shooting. Attention is given to the game's rules and tactics, with emphasis on sportsmanship and fair play. There will be a game at the end of each class.

## **SWIMMING**

Learn the principles of swimming and basic water safety. Beginners gain confidence in the water. For those with some swimming ability, emphasis is on kicking, stroking and breathing. Bring towel, swimsuit, and combination lock. There is a minimum height requirement of 52" to enroll in Swimming. All students will be measured!

## **TENNIS**

Develop the skills to compete successfully at the ever-popular game of tennis. Materials Required: One sealed can of 3 tennis balls and an appropriately sized racquet.

## **VOLLEYBALL**

Volleyball is an excellent way to socialize, while getting an intense workout. You will learn the basic skills of volleyball including how to bump, set, spike, pass and serve while learning how to work as a team.
