Tips for working on your assignments

To begin an assignment of any type just click on the assignment name.

- **TIP:** When highlighted in blue (or clickable), the assignment is active and can be taken. When not highlighted (or clickable), the assignment either 1) has not reached its “available” date yet, 2) has passed its due date, or 3) you have reached the maximum number of attempts on the assignment.
If you are unable to open an assignment, please:

- Check the start or due date column and status columns
- Make sure you have not exceeded the number of allowed attempts
Please be sure to carefully read all the assignment instructions (if provided by your instructor) before you close the window to begin your assignment.

- You will also find the due date and attempt number on the top of this window.
You have two options while working on any assignment:

- **Save and Exit**
  - *Click this button if you want to save your work to complete later*
  - *Saving does not count as an attempt*

- **Submit Assignment**
  - *Choose this button when you are ready to have your assignment scored*
