This course will help students develop skills through widely-used Electronic Health Records (EHR) software. They will learn the basics of entering demographic and health information; Clinical Decision Support Tools, Physician Order Entry Screens, and Electronic Prescribing. In addition, CTF 89 teaches students how to define, formulate and interpret health information from an actual EHR, as well as arrange and create detailed workflows. Time will also be allotted to give students practice for the NHA CEHRS examination.

Prerequisites: Computer proficiency and some experience in office administration. Computer proficiency will be assessed.
