

Networking Events Outside KCC

- **National Student Nurses' Association (NSNA) Annual Convention** 

<https://www.nsna.org/meetings.html>

The National Student Nurses' Association (NSNA) offers major networking opportunities through its Spring Annual Convention and Mid-Year Conference in the fall, each featuring exhibit halls, career planning resources, specialty showcases, workshops, and sessions where students can connect with peers, faculty, employers, and nursing leaders. These events help members build professional connections, explore career paths, and gain insight into the nursing field while preparing for future roles in healthcare.
