

Networking Events Outside KCC

- **APHA Annual Meeting & Expo**

<https://www.apha.org/events-and-meetings/annual>

The APHA Annual Meeting and Expo is the world's premier public health conference, they bring together approximately 11,000 professionals each year for networking. The event is held annually in late October or early November. Student members receive discounted registration for both in-person and virtual attendance.

- **SOPHE Annual Conference**

https://www.sophe.org/conferences_events/annual-conference/

The Society for Public Health Education Annual Conference is an annual spring conference centered on health education and health promotion research. They offer networking and learning opportunities for students and student members are also eligible to apply for attendance scholarships.

- **NYSPHA Annual Meeting & Conference**

<https://www.nyspha.org/annual-meeting-conference>

The NYSPHA Annual Meeting and Conference is an annual spring conference focused on New York State public health practice and advocacy. It provides students and professionals with valuable networking opportunities alongside public health leaders from across New York State.

- **CUNY Career Launch / Spring Forward**

<https://www.cuny.edu/about/administration/offices/ocip/students/spring-forward/>

The CUNY Career Launch's internship with Spring Forward is an annual spring semester event that connects CUNY students with employment opportunities in healthcare services across the university system. This is recommended for students in semesters 3-4 as they prepare for professional entry.

- **NYC DOHMH Professional Health Events and Trainings**

<https://www.nyc.gov/site/doh/providers/resources/training-opportunities.page>

The New York City Department of Health and Mental Hygiene offers year-round training opportunities including workforce development programs and public health conferences. They help to support community health education and professional growth. Participation is recommended for students in semesters 2-4 as students build applied public health skills.
