Professional Organizations

- ## Association for Computing Machinery

  https://www.acm.org/membership/join

  The Association for Computing Machinery (ACM) is the world's largest professional society for computing and information technology, connecting researchers, educators, and practitioners to advance the science and practice of computing. Its membership offers access to leading publications, conferences, career development resources, and a global network of peers to support lifelong learning and professional growth.
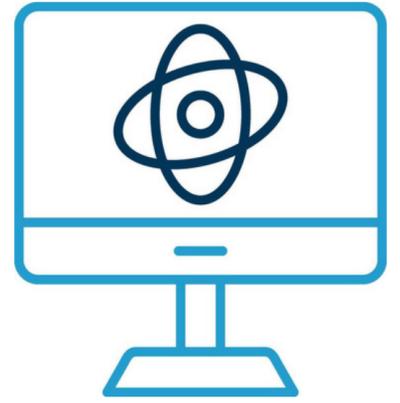

- ## ACM-W (ACM's Council on Women in Computing)

  https://women.acm.org/

  ACM-W advocates internationally for the full engagement of women in all aspects of the computing field, providing a wide range of programs and services to ACM members and working in the larger community to advance the contributions of technical women. ACM-W warmly welcomes the participation of all individuals who are interested in advancing ACM's mission and core values.

- ## Institute of Electrical and Electronics Engineers

  https://www.ieee.org/membership/join
  The Institute of Electrical and Electronics Engineers (IEEE) is a global technical professional association dedicated to advancing technology and innovation in engineering, computing, and related fields. Its membership connects students and professionals to conferences, publications, technical resources, and networking opportunities.

- ## IEEE Computer Society

  https://www.computer.org/
  The IEEE Computer Society is an international community that promotes innovation, knowledge sharing, and professional growth in computer science and engineering. It offers members resources such as journals, conferences, technical standards, and learning opportunities to stay at the forefront of technology.

- ## Association for the Advancement of Artificial Intelligence

  https://aaai.org/membership/

  The Association for the Advancement of Artificial Intelligence (AAAI) offers membership for individuals and institutions interested in artificial intelligence research and applications. Members gain access to AI conferences, publications, networking opportunities, and resources that support engagement with the global AI community.
