

Networking Events Outside KCC

- **EMS World Expo & NAEMT Annual Meeting**

<https://www.hmpglobevents.com/emsworldexpo>

EMS World Expo is a major annual conference for emergency medical services professionals. It also serves as a large networking event where attendees can explore new EMS technologies and engage with exhibitors from across the healthcare while also including emergency response fields.

Recommended in semesters 2-3

- **EMS & FIRE PRO Expo**

<https://emspro.org/>

EMS PRO Expo is an EMS conference that brings together emergency medical personnel for hands-on training and skill development. It also provides opportunities for attendees to connect with various instructors and vendors within EMS professionals.

Recommended in semesters 2-3

- **FDNY Search & Rescue Field Medicine Symposium**

<https://www.fdneypro.org/srfm/>

The FDNY Fire & Life Safety SRFM is a professional training event focused on fire and life safety education. This includes both emergency services and public safety personnel. It also offers opportunities for participants to connect with experts to learn about current safety standards and procedures.

Recommended in semesters 2-3

- **EMS World Live**

<https://www.hmpglobevents.com/emsworldexpo>

EMS World Expo is an annual EMS conference that provides education and updates on current emergency medical practices. They bring together EMS professionals to explore new technologies and equipment.

Recommended in semester 2

- **National Association of EMS Educators Symposium**

<https://naemse.org/>

The National Association of EMS Educators is an organization focused on improving emergency medical services education through educator development. It also connects EMS instructors to share best practices and strengthen the quality of EMS instruction nationwide.

Recommended in late semester 3 or post-graduation

- **Air Medical Transport Conference**

<https://aams.org/>

The Association of Air Medical Services offers opportunities for professionals in air and critical care transport through conferences and member engagement activities. Their events connect healthcare providers and transport specialists to share advancements in transport medicine. They also provide great exposure to specialty EMS career pathways.

Recommended in late semester 3 or post-graduation

- **COAEMSP ACCREDITCON**

<https://www.accreditcon.org/>

ACCREDITCON is an organization for EMS educators to share practices in paramedic and AEMT education. The conference brings together peers through workshops focused on advancing accreditation which is useful for leadership-track students.

Recommended in late semester 3 or faculty/leadership track

- **State & Regional EMS Conferences**

<https://www.naemt.org/events/ems-conferences>

The National Association of Emergency Medical Technicians EMS conferences help connect EMS medical directors in exchanging knowledge and collaborating with EMS professionals. This is done within events like EMS World Expo, the NAEMT Annual Meeting, and EMS On The Hill Day.

Recommended semesters 2-3
