

Networking Events Outside KCC

- **American Society of Civil Engineers**

<https://www.asce.org/education-and-events>

The American Society of Civil Engineers (ASCE) Education & Events section offers a broad range of educational programs, continuing education courses, and professional development events to help civil engineers advance their knowledge and careers. It includes in-person and on-demand training, webinars, technical conferences, and resources for earning professional development credits and staying current in the field.

- **New York State Society of Professional Engineers**

<https://nysspe.org/upcoming-events/>

The New York State Society of Professional Engineers (NYSSPE) is a professional association that advocates for over 25,000 licensed engineers in New York State by promoting ethical practice, professional licensure, and career development. It hosts a wide range of educational seminars, networking events, and community activities to support engineers' ongoing learning and engagement.

- **Structural Engineers Association of New York**

<https://www.seaony.org/events>

The Structural Engineers Association of New York (SEAoNY) is a professional organization that supports and advances structural engineering in New York. It offers educational events and networking opportunities for engineers and students in the field.
