

# Networking Events Outside KCC

---

- **American Association of Sleep Technologists**

<https://aastweb.org/education-events/annual-meeting/>

The American Association of Sleep Technologists annual meeting is a multi-day educational and networking event each June held alongside the larger SLEEP meeting, featuring sessions led by sleep medicine specialists and opportunities to earn continuing education credits. Attendees connect with professionals from all practice settings, participate in learning sessions to earn continuing education credits, and expand their professional network within the sleep medicine community.
