

# Networking Events Outside KCC

---

- **Association of Surgical Technologists**

<https://ny.ast.org/MeetingsEvents/events.aspx>

The New York State Assembly of the Association of Surgical Technologists a professional organization that supports surgical technologists through networking and continuing education. It hosts an annual NYAST Fall Conference, Business Meeting, and Election event each fall, which combines continuing education sessions (offering CE credits), opportunities for members to participate in governance, and the election of leadership positions. This meeting allows members to engage with peers, help shape the direction of their state assembly, and fulfill professional development requirements.
