Kingsborough Community College

Department of Nursing Nursing Student Handbook Spring 2021

Nursing Department Student Handbook, Page 2 of 36

Welcome to the Department of Nursing

On behalf of the Faculty and staff of the Department of Nursing, we are pleased to welcome you to the Nursing Program. We hope that you will have a gratifying, scholarly journey as a nursing student here at Kingsborough Community College.

This handbook contains valuable information to facilitate your achievement of academic and professional excellence as a nursing student. Please keep it as a reference throughout your nursing education. It is a supplement to the College Catalog and College Student Handbook. *All information contained in this handbook is subject to change. Changes will be published as they occur.*

The Handbook is on the department website – Please download it if you lose this copy.

*** In the Spring 2021 semester, due to the COVID-19 Pandemic all courses will continue to be conducted in a hybrid format.

Professor Bridget Weeks, Chairperson, Department of Nursing

NURSING PROGRAM INFORMATION

Mission Statement

The mission of the Nursing Program at Kingsborough Community College is to develop competent Professional Nurses who are eligible for licensure. An appropriate balance between general education and Nursing courses prepares students with the competencies to provide safe, caring, patient-centered, evidenced-based Nursing care to culturally diverse populations. Graduates are prepared for entry into practice, articulation with institutions of higher learning, and engagement in life-long learning. The administration and faculty are committed to offering a superior education to Nursing students that will prepare them to practice as Professional Nurses in accordance with national standards.

Nursing Program Outcomes

At a minimum, the Kingsborough Community College Nursing Program will achieve the following outcomes:

- 1. NCLEX pass rate for all first time test takers in the same calendar year will be at least 80%.
- 2.
- A. At least 65% of graduates will have completed the clinical component of the program within 6 semesters (3 years) of enrollment in the first nursing course.
- B. At least 65% of advanced placement (LPNs) graduates will have completed the clinical component of the program within 5 semesters (2.5 years) of enrollment in the first nursing course
- 3.
- A. ≥85% of graduates will be employed in a position requiring an RN license within six-twelve months after completing the Program.
- B. \geq 85% of graduates enter a BSN program within six-twelve months after completing the Program.

End of Program Student Learning Outcomes

Upon completion of the Kingsborough Community College Nursing Program, utilizing the Nursing Process in a variety of health care settings to a diverse population of patients, the student will:

- 1. Organize nursing care to provide a safe patient environment.
- 2. Prioritize nursing interventions when providing nursing care.
- 3. Integrate evidence-based nursing practice into nursing care.
- 4. Integrate critical thinking/clinical reasoning strategies when providing nursing care.
- 5. Support principles of teamwork and collaboration when working with members of the interprofessional team.
- 6. Develop appropriate leadership/management strategies when providing nursing care.
- 7. Incorporate the utilization of informatics principles and technology systems while providing nursing care.
- 8. Support ethical and legal principles relevant to the practice of registered nurse.

Organizational Framework

To realize the Nursing Program's Mission, Program Outcomes and End of Program Student Learning Outcomes the curriculum is grounded in recognized contemporary professional standards, guidelines and competencies which include <u>ACEN 2017 Standards and Criteria for</u> <u>Associate Degree Nursing</u>, <u>NLN Associate Degree Competencies</u>, <u>ANA Standards of Nursing</u> <u>Practice</u>, <u>New York State Nurse Practice Act</u>, <u>National Council of State Boards for Nursing's</u> (NCSBN) NCLEX-RN Test Plan Categories of Client Needs, <u>Hospital: 2020 National Patient</u> <u>Safety Goals</u>, and <u>Quality and Safety for Nurses (QSEN) Competencies</u>.

The QSEN Competencies together with the NCLEX-RN Categories of Client Needs provide the major unifying themes for application of the Nursing Process and for content and student learning throughout the curriculum. These are introduced in the first semester of the Nursing Program's Clinical Component and are applied at increasingly complex levels in successive semesters in the classroom, laboratory and clinical settings. The Student Learning Outcomes organize the curriculum, guide the delivery of instruction and learning activities, and are used to evaluate student progress. The Nursing curriculum and Student Learning Outcomes advance from simple to complex utilizing Bloom's revised Taxonomy of Learning Objectives, which culminate in End of Program Student Learning Outcomes.

The Nursing faculty integrates Knowles Theory of Adult Education in applying educational theory appropriate for student learning. This theory promotes the development of critical thinking, clinical judgment, and the delivery of excellence in patient-centered care to adult students who make up the major demographic in the Nursing Program.

Role of the Associate Degree Nurse (ADN)

Nursing practice takes place at differentiated levels. The Associate Degree Nurse is an entrylevel practitioner and is competent to practice as a direct caregiver in a variety of health care settings, which include diverse patient populations. The ADN practices in the roles of provider of care, manager of care, and member within the discipline of Nursing. The ADN graduate is prepared to provide care for groups of individuals with multiple problems and with a high level of acuity in multiple settings using current standards of care and research findings to inform and guide his/her Nursing practice. The ADN graduate is also equipped with the ability to perform proficiently in an increasingly technological healthcare arena. The practice of the ADN is consistent with the guidelines of the Nurse Practice Act and the American Nurses Association Code of Ethics.

The ADN uses effective communication skills and collaborates with patients and other health team members to coordinate care. The ADN prioritizes and delegates the delivery of nursing care and evaluates outcomes. The ADN graduates are employed in a health care delivery system that continues to grow and change. As a result, ADN graduates are encouraged to pursue bachelors, masters and doctoral degrees in preparation for advanced levels of practice.

Program Information

Kingsborough Community College is accredited by the Middle States Commission on Higher Education and offers a Nursing Program that is approved by the New York State Education Department. This nursing education program is accredited by the Accreditation Commission for Education in Nursing; 3390 Peachtree Road NE, Suite 1400, Atlanta, Georgia 30326, http://www.acenursing.org/. The graduate receives an Associate in Applied Science Degree

and is eligible to take the <u>National Council Licensure Examination for Registered Nurses</u> (NCLEX-RN).

The Nursing Program at Kingsborough Community College meets the state education requirements for a Registered Professional Nursing license in the state of New York. Kingsborough Community College has not determined if the nursing program at Kingsborough Community College meets the state education requirements in any other state, any U.S. Territory, or the District of Columbia.

INFORMATION FOR APPLICANTS AND PRE-CLINICAL STUDENTS

Essential Performance Standards for Clinical Nursing Students

Nursing is a practice discipline with cognitive, sensory, affective and psychomotor performance requirements. Patient safety is dependent on the nursing student's ability to meet the following Essential Performance Standards. These standards are a part of each nursing course. It is required that every Clinical student meets these standards to be able to engage in learning activities that will not endanger students, faculty or patients. Determination is made on an individual basis as to whether or not necessary accommodations or modifications can be made reasonably while assuring patient safety.

Issue	Standard	Some Examples of Necessary Activities (Not all inclusive)
Critical Thinking	Critical thinking ability sufficient for clinical judgment.	 Identify cause-effect relationships in clinical situations. Develop unfolding nursing care plans. Demonstrate ability to calculate, measure & analyze within allotted time frame. Employ Analytical thinking. Transfer knowledge from one situation to another. Process information. Evaluate outcomes. Problem solve. Prioritize tasks. Use short and long-term memory. Utilize critical reasoning. Identify cause-effect relationships. Plan activities for others. Synthesize knowledge and skills. Sequence information.
Communication	Communication abilities sufficient for accurate, timely and efficient perception, interpretation and communication of information	 Explain treatment procedures. Initiate health teaching. Respond to and interpret health care provider orders. Direct assistive staff.

Issue	Standard	Some Examples of Necessary Activities (Not all inclusive)
	in English, including verbal, written and non-verbal when interacting with others.	 Write legibly and correctly. Document and interpret nursing care actions and patient outcomes. Use computerized documentation skills.
Interpersonal	Interpersonal abilities sufficient to interact with individuals, families and groups from a variety of social, emotional, cultural, religious and intellectual backgrounds.	 Establish rapport with patients, family, staff, teachers and peers. Negotiate interpersonal conflict. Respect differences in patients. Maintain composure when subjected to high stress levels.
Mobility	Physical abilities sufficient to move from room to room, maneuver in small spaces and navigate stairwells.	 Lift (at least 30 pounds). Bathe, position, transfer and transport patients. Move around in patient's rooms, work-spaces and treatment areas. Administer nursing procedures. Move efficiently enough to meet the needs of several patients in a timely manner. Perform patient care in emergency and non-emergency situations. Possess full manual dexterity of the upper extremities, including the neck and shoulders. Possess ability to touch the floor to remove environmental hazards. Possess ability to sit, bend, reach, walk and stand for the entire length of the clinical experience. Possess ability to sustain repetitive movements (e.g., CPR).
Motor Skills	Gross and fine motor abilities sufficient to provide safe and effective nursing care.	 Calibrate and use equipment. Administer injections. Insert and/or maintain patient catheters/tubes. Operate equipment and devices, such as thermometers, blood pressure cuffs, IV pumps, ventilators. Position patients. Operate equipment and devices in emergency situations.
Hearing	Auditory ability sufficient to	Respond to all signals, alarms and

Issue	Standard	Some Examples of Necessary Activities (Not all inclusive)
	monitor and assess health needs.	 other displays indicating immediate patient need. Auscultate and hear cardiac, lung and abdominal sounds. Hear patient and team member's communications and telephone communications.
Visual	Visual ability sufficient for observation and assessment necessary in nursing care.	 Observe/assess pertinent body systems including inspection of respirations, temperature, blood pressure and color. Observe/assess medical equipment, including calibrated scales, such as, monitors, syringes, manometers, oxygen.
Tactile	Tactile ability sufficient for physical assessment and therapeutic intervention.	 Perform palpation (feel for pulses, lumps), percussion (short quick blows by the fingers), usually to the chest or abdomen, to obtain a sound or the determination of density, size or position. Detect variations in temperature.

Nursing Program Components

Admission to Kingsborough Community College does not guarantee admission to the Nursing Program. The Nursing Program consists of two components:

- Pre-Clinical.
- Clinical.

To obtain specific information about college admission requirements and/or to obtain an application contact: <u>Admissions Information Center</u> or call 1 718 COLLEGE. To enter the Clinical Component, students must first complete the Pre-Clinical Sequence of the program Advisement for Pre-Clinical Nursing Students is located in the Academic Advisement Center for Allied Health Career, located in V-103 or call (718) 368-4600.

Enrollment in the Nursing Curriculum

Students must be enrolled in the Pre-Clinical student group. Students who are not officially designated in the Pre-Clinical student group must apply for a Change of Curriculum during the time period noted on the official academic calendar of the college. This calendar is available on the KCC website or can be obtained at the Office of the Registrar, A-101.

In order to request a change of curriculum, you must obtain the Change of Curriculum form at the Office of the Registrar, meet with your advisor to discuss your academic performance and obtain your advisor's signature. If you do not know whom your advisor is, go to room F-123, Academic Advisement (718) 368-4806. Currently, the advisor for all allied health programs can

be contacted at (718) 368-4926. After obtaining your advisor's signature, you must obtain the signature of the chairperson or designee of the department of your "current curriculum." Lastly, you leave your completed form at the Nursing Department office, M-401. After final grades have been recorded for the semester in which you submit a change of curriculum, your request reviewed by the Nursing Department. The Registrar will notify students when the change is in effect.

Students with Disabilities

Access-Ability Services (AAS) serves as a liaison and resource to the KCC community regarding disability issues, promotes equal access to all KCC programs and activities, and makes every reasonable effort to provide appropriate accommodations and assistance to students with disabilities. Your instructor will make the accommodations you need once you provide documentation from the Access-Ability office (D-205). Please contact AAS for assistance. All documents for accommodations must be submitted to the course faculty and nursing office three business days prior to the next exam.

Transfer Students

Students who wish to transfer into the nursing curriculum from other colleges must meet the criteria for admission into the nursing curriculum. Students must file an Application for Advanced Standing during the time period noted on the Academic Calendar. Official transcripts must be sent to the Registrar's Office and an evaluation of your previous course work will be done. As per college policy, no more than 30 credits may be transferred. All grades for Pre-Clinical courses will be used to calculate the Pre-Clinical grade point average.

Entrance Requirements

To be considered for the Clinical Component of the Nursing Program, a student must comply with the following:

- be enrolled in the Pre-Clinical Component. Student must complete an application for Pre-Clinical Nursing during the period noted on the Academic Calendar. The application is obtained in the Registrar's Office. The student must see a nursing counselor to discuss their academic performance and obtain a advisor's signature on the application. The application is submitted to the Nursing Department (M401);
- english and math proficient as determined by the CUNY Proficiency Index, unless otherwise exempt, or successful completion of any required developmental course(s). before completion of the four (4) courses in the Pre-Clinical Sequence;
- 3. complete the four (4) courses in the Pre-Clinical Sequence: ENG 1200, PSY 1100, BIO 1100 and SCI 2500;
- 4. complete the four courses the Pre-Clinical Sequence with at least a grade point average of 2.5 and earn at least two (2) B's (one of which must be in SCI 2500 or BIO 1100);
- 5. students who has repeated and/or withdrawn from any of the Pre-Clinical Sequence courses may not be considered for admission to the Nursing program;
- 6. all grades received for courses taken in the Pre-Clinical Sequence at Kingsborough will be included in the Pre-Clinical average computation;
- submit transcripts from other colleges (NOTE: Letter grades received in the Pre-Clinical Sequence courses at other colleges will be used to determine eligibility for admission); any biological science course more than 10 years old will not be accepted for exemption or credit;

- 8. perform satisfactorily on the Test of Essential Academic Skills (TEAS) exam.
- 9. transfer students from other colleges must be in good academic standing. A student, who is on academic probation or has been administratively dismissed from a Nursing program at a previous school, is not eligible for admission to the Nursing Program;
- 10. the student must earn a minimum of "C" in all pre- and co-requisite courses inclusive of BIO 1200, BIO 5100, ENG 2400, PSY 3200, and SOC 3100. Students who have repeated and/or withdrawn from these courses may not be considered for admission to the Nursing Program.
- 11. Students are permitted to defer with a valid reason for one semester only and with the approval of the Chairperson of the Nursing Department. Upon approval the student must enter the program the following semester. Failure to do so will result in the need to reapply to the program following all the criteria for admission, inclusive of retaking the TEAS.

PLEASE NOTE WELL: REVISED NURSING PROGRAMS ADMISSION POLICY June 24, 2020

Effective immediately, all CUNY nursing programs will consider applicants for admission who are eligible for licensing in New York under the regulations of the New York State Education Department. The regulation provides eligibility for citizens and non-citizens who are "not unlawfully present," including those with Deferred Action for Childhood Arrivals (DACA) and those permanently residing in the United States under color of law (PRUCOL). Applicants may demonstrate eligibility through documents that verify that they meet the required criteria. The most common documents include:

- 1. Proof of U.S. citizenship through a birth certificate, U.S. passport, naturalization certificate, or a certificate of citizenship.
- 2. Proof of legal permanent resident status with what is known as a "Green Card".
- 3. Proof of various eligible categories, listed below, generally through an employment authorization document (EAD) or other satisfactory documentation.

Eligible immigration categories:

- 1. International student with F-1 status
- 2. Asylee
- 3. Refugee
- 4. Temporary Protected Status (TPS)
- 5. Deferred Action for Childhood Arrivals (DACA)
- 6. Individuals paroled into the United States whose parole has not expired
- 7. Persons residing in the U.S. pursuant to an Order of Supervision
- 8. Persons granted a stay of deportation/removal
- 9. Persons granted an indefinite voluntary departure
- 10. Persons on whose behalf an immediate relative petition has been approved
- 11. Persons who have filed an application for adjustment of status to permanent resident
- 12. Persons granted Deferred Action Status
- 13. Persons who entered and have continuously residency in the U.S. before 01/01/1972
- 14. Persons granted suspension of deportation or cancellation of removal
- 15. Cuban/Haitian entrants
- 16. Persons with a pending application for asylum, withholding of removal or deportation, protection under the Convention Against Torture (CAT), cancellation of removal, or TPS
- 17. Persons in T or U non-immigrant status

- 18. Self-petitioner under the Violence Against Women Act
- 19. Other persons living in the U.S. who are not unlawfully present

Notice to Students on Criminal Background Checks

Current laws generally permit a state licensing board or agency to deny a license to
practice nursing if the applicant has been convicted of a felony or other specified crime.
Like many state licensing boards, the Office of the Professions of the New York State
Education Department requires that a criminal background check be conducted prior to
granting a license to practice nursing.

The Department of Nursing at Kingsborough Community College does not require a criminal background check for admittance, but the Department's educational requirements include placement at one or more hospitals or other off-campus clinical training sites and these sites frequently require a student to undergo a criminal background check before the student can be placed for clinical training. Therefore, all clinical students will be required to have a criminal background check completed prior to the start of the initial clinical practice experience. The cost for this clinical requirement is the student's responsibility.

A student may also have to complete more than one criminal background check during the course of the Nursing Program at Kingsborough Community College, depending on the number of sites where they are placed and the requirements of each site.

If the student receives a negative incident finding from a criminal background check result, the student must resolve that issue before the start of the clinical practice experience. This may require that the student withdraw or not be permitted to register for the course for the semester until the issue is satisfactorily resolved. There are NO alternative clinical placements.

Please note that if a student is not permitted to take part in a clinical practice experience required by the program based on the results of a criminal background check, **the student may be unable to complete the course requirements**. It is important for a student to consider this before enrolling in any course of the Nursing Program. Kingsborough Community College has no obligation to refund tuition or fees or to otherwise accommodate the student in the event they are ineligible to complete the course requirements based on the results of a criminal background check.

Students who successfully complete the prescribed Pre-Clinical Sequence requirements must file for an application to take the ATI-TEAS exam and an application for acceptance into the Clinical Component of the Nursing Program. Completion of the above requirements does not guarantee admission into the Clinical Component; Admission to the Clinical Component is based on space availability, the Pre-Clinical Sequence grade point average and Test of Essential Academic Skills (TEAS) results (overall proficient rating and basic score in all sub-categories). Candidates are ranked based on their Pre-Clinical GPA and the TEAS results.

Application forms and specific filing dates for the Clinical Component of the Nursing Program are available in the Nursing Department office, M-401. The completed form should be filed in that office during the Spring or Fall semester in which the student expects to complete the Pre-Clinical requirements. Students completing the requirements during the Summer or Winter module should file their application in the following Fall or Spring semester.

Advanced Placement for Licensed Practical Nurses

Licensed practical nurses (LPN) who are accepted into the Clinical Component may receive credit for NUR 1800 (Fundamentals of Nursing) by earning a score of Level 2 or better on the ATI Proctored RN Fundamentals Exam. These candidates may receive credit for NUR 1700 (Calculations for Medication Administration) by achieving a grade of "B" or better on the Department of Nursing's NUR 1700 final examination. Candidates wishing to earn these credits by examinations must meet with the Department Chairperson.

Rules of Professional Conduct for Registered Nurses

In order to be licensed as a Registered Professional Nurse in New York State you must:

- Be of good moral character.
- Be at least eighteen years of age.
- Meet professional education and examination requirements.

All licensed professional registered nurses must adhere to rules of professional conduct. The New York State Education Law includes definitions of professional misconduct and the Board of Regents has rules defining unprofessional conduct. <u>The New York State Education Department</u> (<u>SED</u>), <u>Office of the Professions</u> investigates all applicants who have a prior criminal conviction(s) and/or pending criminal charges (felony or misdemeanor). Following its investigation, a determination will be made as to the applicant's eligibility for licensure.

The Board of Regents defines professional misconduct as the failure of a licensed professional to meet expected standards of practice. To ensure public protection, SED's Office of the Professions investigates and prosecutes professional misconduct in all professions (except medicine). Professional misconduct includes:

- Engaging in acts of gross incompetence or gross negligence on a single occasion, or negligence or incompetence on more than one occasion.
- Permitting or aiding an unlicensed person to perform activities requiring license.
- Refusing a patient or patient service because of race, creed, color, or national origin.
- Practicing beyond the scope of the profession.
- Releasing confidential information without authorization.
- Being convicted of a crime.
- Failing to return or provide copies of records on request.
- Being sexually or physically abusive.
- Abandoning or neglecting a patient in need of immediate care.
- Performing unnecessary work or unauthorized services.
- Practicing under the influence of alcohol or other drugs.

Graduates of the KCC Nursing Program who pass the NCLEX-RN examination and obtain New York Registered Nurse licensure can seek employment as a Registered Nurse in hospitals, long-term care facilities, schools, home care and other community-based locations. The license to practice enables you to obtain a position working in such areas as medicine, surgery, pediatrics, psychiatry and maternity. New York State law requires a Registered Professional Nurse (RN) who graduates from an ADN program must obtain a Bachelor of Science degree in Nursing within 10-years of licensure in order to maintain their status as a RN.

Nursing Profession Resources

Information about Nursing as a career as well as job opportunities and scholarship information can be obtained from the <u>American Nurses Association</u>. Other useful resources include: the <u>National Student Nurse Association</u>; <u>Discover Nursing</u>; the <u>Transcultural Nursing Society</u> at; the <u>National Black Nurses Association</u>, and the <u>National Hispanic Nurses Association</u>.

The faculty and staff at Kingsborough Community College are ready to support your education and professional growth. Nursing courses are taught by masters and doctoral prepared Registered Nurses, who have many years of clinical practice experience. The Nursing Club is a campus organization that provides opportunities for support, assistance and collaboration for Pre-Clinical and Clinical Nursing students. The Nursing Club can be contacted at **718 368-5522**.

The nursing profession calls for lifelong learning. To support your educational advancement, The KCC Nursing Program has articulation agreements with a number of colleges in the New York metropolitan area. These agreements allow you to easily transfer credits towards completing a Baccalaureate degree in nursing. Information regarding these agreements is available to the students in the Nursing Office at **718 368-5522**.

INFORMATION FOR CLINICAL STUDENTS

Clinical Course Requirements

PRIOR TO EVERY SEMESTER, students must submit the following:

Health Clearance: Students must be free from addiction to drugs, alcohol or other behavior altering substances; able to stand, walk, bend, push, grasp and lift without restriction; and have normal sight, hearing and speech (with correction). Prior to registration, students in clinical nursing courses are required to obtain health clearance from CastleBranch. Students should obtain information regarding annual physical examination, immunizations, tuberculosis testing, and forms by accessing this CastleBranch link: <u>https://portal.castlebranch.com/UQ42</u>. Each semester students are required to have a drug screening done no earlier than 2-weeks prior to the beginning of the semester. All students must obtain and submit proof of an influenza immunization each flu season in order to attend clinical and upload to CastleBranch. There is a one-time fee for uploading any documentation on CastleBranch during the course of the program.

Malpractice Insurance: Individual Student Malpractice Insurance is not required. Students are protected under CUNY's Insurance coverage.

CPR Certification: Students in clinical nursing courses must obtain American Heart Association CPR certification (BLS/AED) or BLS Healthcare Provider certification and upload this on to the CastleBranch site prior to registration.

Information on obtaining CPR certification is available in the Nursing Department Office, MAC 401.

Criminal Background Check: : To comply with the Department of Nursing requirements for student clinical experience placements, all students prior to registration in nursing courses in which there are laboratory experiences in hospitals and other health agencies, are required to

complete a criminal background check before being assigned to a clinical agency. The cost for this pre-clinical placement screen will be approximately \$100 per student. Each student will be required to set-up an individual personal portal account with CastleBranch, which will provide the student with instructions on payment options and what to do to complete the screening process. Students are required to check their KBCC email frequently as the link will be sent to each student directly from the company.

This information must be submitted each semester (by July 15 for the Fall semester and by January 15 for the Spring semester) in order to attend clinical experiences. If a student does not comply and misses clinical, it will be counted as an absence.

Fees and Expenses

Students are required to purchase their own books. Clinical Nursing students incur the expense of purchasing a required uniform, school patch for the uniform and equipment necessary for clinical practice in healthcare agencies. Books and the school patch are available at the campus bookstore.

Estimated Costs of Personal Expenses for 2020-2021:

Living at Home or with Relatives	
Tuition & Fees	\$ 5,252.00
Books & Supplies	\$ 1,516.00
Transportation	\$ 1,280.00
Personal Expenses	\$ 1,788.00
Lunch	\$ 1,232.00
Room and Board	\$ 4,290.00
TOTAL	\$15,358.00
Living Away	
Tuition & Fees	\$ 5,252.00
Books & Supplies	\$ 1,516.00
Transportation	\$ 1280.00
Housing	\$ 15,242.00
Personal Expenses	\$ 4,248.00
TOTAL	\$ 27,538.00

Criteria for Retention in the Nursing Program

Criteria for retention in the Nursing Program mandates that students:

- 1. Earn a minimum of a "C" grade in every required Nursing and co-requisite course inclusive of BIO 1200, BIO 5100, ENG 2400, and PSY 3200.
- 2. Students who achieve a "C-" grade in required clinical nursing course may apply to repeat the course one time only in the semester immediately following, subject to space availability. The minimum grade for clinical courses that are repeated is a "B." The "Intent to Return to Nursing Course" form can be found on the KCC Website Nursing Department page under "Nursing Program Forms". This must be completed and include a plan of success that demonstrates significant changes in how they will approach the course when repeated. Only one required nursing course may be repeated. A grade of less than a "C" in a second nursing course will cause the student to be dismissed from the program.
- 3. Students must achieve a grade of "B" in order to pass NUR 1700. Students in NUR 1700 who achieve a failing grade of no less than "C-"may repeat the course one time only after submitting an "Intent to Return Form."
- 4. Students who enter Nursing 1700 and Nursing 1800 **MUST** complete the Nursing Program within four years from the date of entry into this course. Any student who has not attended nursing courses for two or more consecutive semesters cannot be readmitted into the Nursing Program unless qualifying examinations have been passed in the required nursing courses previously successfully completed. Qualifying examinations may be repeated only once.
- 5. Students who are in the clinical component can only appeal the retention criteria one time.
- 6. Students who are in the clinical component can only withdraw once and must be passing to do so.

Required Nursing courses NUR 1700, 1800, 1900, 2000, 2100, 2200, 2300, and 2400.

Blackboard

Blackboard is a course management system that allows faculty to conduct fully on-line, hybrid, and in person classes. In this course management system faculty can post materials, deliver assignments and surveys, hold on-line discussions and many other course-related functions. All currently enrolled students and faculty can access the Blackboard system that is available 24/7 from anywhere on the internet. All Nursing courses utilize Blackboard to communicate course materials and important program information.

Distance Learning

Specific courses in the Nursing Program may be offered in an online format. Many of the Nursing electives are offered in a hybrid format. All courses, regardless of format, adhere to the same standard of rigor. Students who enroll in online and hybrid courses must have access to Microsoft programs: Word and PowerPoint. These programs can be accessed at home, in the library and/or in MAC 224 computer labs. These programs are available for student download free of charge through <u>CUNY Technology Services page</u>.

Assessment Technology Institute (ATI)

Kingsborough's Nursing Department uses ATI Nursing Education tutorials, testing and remediation each semester. Students are required to purchase ATI for their specific course(s) each semester. Active participation in ATI assignments and testing is a requirement of all courses and will account for a percentage portion of the course grade with the exception of NUR 1800 which is Pass/Fail. For all other courses failure to take the proctored exams as scheduled will result in a grade of incomplete and will prevent progression in the program. Additionally, at the end of the final semester, all graduating students are required to take an RN Comprehensive Predictor exam. Nursing faculty endorse the use of these tests as important tools for successful preparation for the NCLEX–RN exam. Student who complete all courses and are eligible to graduate must attend the ATI Live RN Live Review scheduled shortly after pinning but before the graduation date.

Skills Review

Since students will be required to demonstrate competency in previously learned clinical skills, all nursing students are strongly advised to return to the lab prior to the beginning of each semester to practice clinical skills in the open lab hours. Failure to show clinical skill proficiency in the clinical area will result in a failing grade for the day. The student is then required to return to the lab to practice the skill with a faculty member and demonstrate proficiency prior to the next clinical day.

Civic Engagement

Kingsborough accepts as a fundamental principle that education requires social awareness, an acceptance of social responsibility and active participation in meeting the challenges of a modern society. Through civic engagement, we recognize our mutual responsibility to care for each other in the college, in our communities, and on our planet. This responsibility may be accomplished through political activity, community service, engagement in leadership roles, advocacy or becoming informed on issues that relate to social change. Therefore, civic engagement at Kingsborough seeks to foster civic awareness while providing the skills needed for our students to actively participate in their communities. Students are required to have a minimum of one (1) civic engagement experiences before graduation. NUR 2000 is designated as a civic engagement course.

Preparation for the Clinical Experience

The faculty and students are ethically accountable for upholding the ANA's Code of Ethics and the Patient's Bill of Rights. Clinical experiences are planned to provide opportunities for students to apply theory to practice. Therefore, it is imperative for students to be prepared for these experiences.

Prior to the clinical experience students are expected to:

- Complete all assigned readings.
- Practice all required skills in the campus laboratory M421.
- Review materials related to medication administration.

Unfolding nursing care plans are integral to the learning process and assist students in the development of critical thinking skills. The unfolding care plans are completed each week in the clinical area.

Student Responsibilities in the Clinical Area

- 1. Students are expected to come prepared to the clinical area. This includes completing all assigned readings, practicing all required skills in the lab and reviewing all materials related to medication administration. They are expected to bring the appropriate course specific paperwork with them, i.e. self-reflective. Students must bring a blank copy of their unfolding nursing care plan each week. If students are unprepared they can be dismissed for the day. This is considered an absence.
- 2. Students are to report to pre-conference in full uniform.
- 3. Students are expected to be on time. If they arrive on the clinical unit either 30 minutes late or after pre-conference is over, whichever comes first, they may not be permitted to remain and an absence is recorded.
- 4. Students are not to leave the clinical unit without first notifying the faculty member. Possible reasons for leaving would include accompanying the assigned patient to a test or other activity.
- 5. Students are to attend post-conference promptly and in uniform. (2-5 should be in student handbook)

Student Evaluation

- 1. Unfolding Care Plans: Unfolding nursing care plans are integral to the learning process and assist students in the development of critical thinking skills. They are completed each week in the clinical area. Each clinical course must follow the requirements for the unfolding care plan. They must be worked on throughout the clinical day and discussed in detail at post conference. The only part that is done at home and brought back for discussion is the self-reflective portion.
- Formal evaluation of each student is scheduled with the assigned clinical instructor on campus by appointment at mid-semester (Week 7 for 12-week courses), (Week 4 for 6-week courses) and again at semester's end. Formal evaluation is accomplished using the Clinical Evaluation Tool, which is completed by the Clinical Faculty. The student is to complete a self-evaluation weekly on the Unfolding Care Plan.
- 3. Students who are encountering difficulty in meeting the Course SLOs should be counseled weekly both verbally and in writing. They may receive an Unsafe/Unsatisfactory Clinical performance form and/or a Lab Review Referral form if the unsatisfactory skill is appropriate for lab practice. In addition, a formal meeting may be called between the student, Course Coordinator, Clinical Instructor and Course lecturer, if appropriate.

Grading Criteria in Clinical

Students must demonstrate satisfactory performance in **ALL** clinical course criteria to obtain a satisfactory clinical competency grade. Each criterion is evaluated as satisfactory/unsatisfactory. If there is unsatisfactory performance of any criteria at semester's end, it will result in a failing (unsatisfactory) grade for clinical. Failure of clinical will result in a grade of *F* for the course.

Satisfactory behaviors (S):

Demonstrates expected skills, synthesis learning and application of nursing principles at expected level.

Demonstrates <u>all</u> of the following (S):

- Exhibits all of the expected behaviors identified
- Performs nursing activities safely
- Seeks appropriate assistance independently

Unsatisfactory behaviors (U):

Demonstrates lack of skill, unsafe nursing practices, inadequate depth of knowledge or application of nursing principles. Functions below expectations of students at this level. Demonstrates <u>one or more</u> of the following (U):

- Fails to exhibit expected behaviors identified in the evaluation tool
- Performs nursing activities unsafely
- Does not identify areas of need and needs direct supervision

Standard Precautions

Standard Precautions are expected to be implemented by all students in the clinical setting.

- Exudative lesions, weeping dermatitis, or other possible communicable conditions should be brought to the attention of the clinical instructor prior to giving care.
- Appropriate barrier precautions should be implemented to prevent skin and mucousmembrane exposure when contact with blood or other body fluids is anticipated.
- Exposure to blood or body fluids must be reported to the clinical instructor, in a timely manner.

Confidentiality

- Confidentiality of all information and records related to patient care is a patient right in New York State and mandated by the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA).
- Students who fail to maintain the patient's right to confidentiality will receive a course grade of F and will not be permitted to return to the clinical site or the program.
- Smart technology devices may be used if the clinical facility permits to access medical references. At no time may a student photograph a patient and/or patient information.
- Students are forbidden to post any patient information/pictures on social media sites.

Dress Requirements

Nursing students are representatives of Kingsborough Community College and must present themselves as professional role models.

- All students are expected to observe good personal hygiene. Only non-perfumed products are to be used.
- Students are required to be dressed professionally at all times. Short skirts, low cut tops, or tight seductive clothing will not be permitted.
- No attire/tinted glasses which cover the students eyes and/or face is permitted.

- The dress code for clinical courses (except Nursing 2000) requires a white uniform (no scrubs) with the Nursing Department patch sewn to the left upper sleeve of the uniform, 2 inches below the shoulder seam. Students must wear white shoes (no sneakers). Uniforms are to be neat, clean, fit appropriately and be in a good state of repair. Head wear for religious reasons should conform with the uniform colors (white).
- Hair is to be clean, neat off the face and above the collar line. Men are to be clean shaven or have a neatly trimmed beard and/or mustache. Unusual colored hair or decorative and pointed hair ornaments/coverage are not permitted.
- Nails should not extend beyond the fingertips and should be rounded and clean. Only non-chipped nail polish is permitted. Artificial nails of any type are not permitted.
- No jewelry other than a plain wedding ring and/or small stud earring may be worn. No visible body piercing jewelry is permitted.
- A KCC picture ID badge, watch with second hand and stethoscope is required.
- Students must also wear the KCC picture identification badge at all off-campus clinical agency experiences.
- Students will wear a lab coat over street clothes when participating in on-campus simulations.
- The dress code for Nursing 2000 requires professional, business attire. Sneakers, tee shirts, jeans, sweat shirts or sweat pants are not permitted. Students may not carry cigarettes on the unit.

Students who come to the clinical setting improperly attired or unprepared for their assignment will be dismissed by their clinical instructor and counted absent.

Student Rights and Responsibilities

Education is a cooperative effort between the expertise of the Faculty and willingness of the student to learn. The Nursing Faculty endorses the fact that you, the student, have certain rights when you enroll in the Nursing Program as well as responsibilities.

The student has a <u>right</u> to:

- accurate, organized, relevant, cohesive and quality nursing education and materials.
- faculty who are knowledgeable, clinically experienced, up-to-date and able to communicate information effectively.
- quality classroom instruction that is punctual, clearly communicated, stimulating, and presented in a positive learning environment that is free of bias and/or hazards.
- quality clinical instruction that is safe, provides a variety of experiences, and guides you toward effective nursing practice.
- fair, impartial, and prompt evaluation of your performance, both theory and clinical.
- support services to facilitate your participation in the learning process.
- regular availability of your faculty (scheduled as their office hours) for advice and assistance with academic or clinical matters.

The student has a <u>responsibility</u> to:

- be in charge of your own learning (which includes adherence to KCC attendance policies). Commit yourself to learning nursing theory and practice through whatever means necessary for you. Be aware of your strengths as a learner and learn to live with or overcome your weaknesses. Be an active participant in all earning experiences.
- learn from the expertise and knowledge of the Faculty. Be prepared for all classes and clinical experiences, submit all assignments as scheduled.
- attend class promptly and regularly. Be attentive to classroom activities, avoid talking out of turn, conversing with friends or sleeping during a classroom presentation.
- follow accepted standards of behavior for nurses as well as the KCC codes and standards for behavior on and off the campus. Be prompt and reliable for all assignments and activities. Remember that you are a guest in the clinical agency and demonstrate appropriate social manners. Learn and abide by the agency's clinical policies and procedures. Remember that the primary responsibility of the staff nurses is patient care, not monitoring or instructing you.
- allow sufficient time for the Faculty to grade assignments with fairness and thoughtfulness. Make appointments with Faculty to discuss grades, issues and concerns.

POLICIES

Attendance Policies

The faculty of the Nursing Department are committed to preparing the student to practice competently and professionally in the health care work environment. Among the many desirable qualities of the nurse are courtesy to others, punctuality for obligations and completion of responsibilities. These qualities also are expected while you are learning to become a nurse.

- You are expected to attend all classes and required to attend all laboratory and clinical experiences. Attendance is taken at the beginning of each class and serves as a record of your commitment to the course.
- Absences of more than 15% of course hours will result in a grade of WU.

Clinical absence in excess of one full clinical day in the twelve-week semester and onehalf clinical day in the six-week semester will result in a course failure.

The academic requirements in the Nursing Curriculum are demanding and students are cautioned to plan their work schedules or extracurricular activities with this in mind.

Classroom Behavior

Complete participation in class is possible only when you are able to focus attention on the class; therefore, entering class after it has begun is disrespectful to faculty and classmates. Talking out of turn or exhibiting other disruptive behaviors is not tolerated and you will be asked to leave the classroom or lab.

All cell phones, smart devices or other multimedia devices that generate sound must be turned off when any member of the academic community enters a classroom. Cellular devices are allowed to be on in the classroom only if the owner is using the caller ID, voice messages or a vibrating battery. NO TEXTING IS ALLOWED AT ANY TIME DURING LECTURE CLASS. LABS and CLINICALS. Members of the academic community must exit the classroom to make or receive calls.

Exam policy

All personal items (backpacks, purses, etc.) must be placed in front of the classroom before the exam begins. The Nursing Department will provide each student with a calculator and #2 pencil during exams. There are to be NO personal items in use (pens, highlighters, pencils, electronic devices, etc.) during an exam. Food and drink is strictly prohibited during the examination period. Students will be asked to remove all hats, scarfs and jewelry prior to the beginning of exams. (The only exceptions are head coverings and jewelry worn for religious purposes).

Please be advised that, pursuant to accreditation requirements, the nursing program requires the mandatory use of remote proctoring tools for exams for all students in all nursing courses, regardless of whether a course is given in-person or remotely.

Student are not permitted talk about/discuss/write down or repeat any question from any exam.

Grading Policies for Nursing Courses

Definition	Grade	Definition	Grade
97 – 100	A+	78 – 79	C+
93 – 96	Α	75 – 77	С
90 – 92	A-	70 – 74	C-
87 – 89	B+	66 - 69	D+
83 – 86	В	60 - 65	D
80 - 82	В-	< 60	F

A grade of C is the minimum passing grade for Clinical Nursing Courses. NUR 1800 is determined by 66% of exam grades, 34% of final exam. Active participation in ATI assignments is a requirement of this course and will account for a Pass/Fall (P/F) course grade. All written assignments are pass/fail. Clinical and laboratory performance is evaluated as Satisfactory (S)

or Unsatisfactory (U). Performance that has been designated as "U" at the end of the course will result in failure of the course (F) regardless of the theory grade. Grading for all subsequent course will be posted in course syllabi. Students must pass both the theory and clinical components of the courses in order to receive a passing grade for the course.

There will be no individual exam reviews with faculty members and there will be no group exam review at the end of the exam. Student may meet with their individual faculty members to discuss their strengths and weakness but not to review specific exam questions.

Grade Appeals

Students, who wish to appeal a grade, should follow the proceeding guidelines:

- Speak with your instructor and discuss the grade.
 - 1. If that is unproductive, speak with the Course Coordinator.
 - 2. If that is unproductive, speak with the Deputy Chairperson.
 - 3. If still dissatisfied, student may request an appointment with the Chairperson of the Department of Nursing).

It might help to first discuss the situation with your advisor.

Students who fail a clinical course with a grade of C- in a required clinical nursing course may apply to repeat the course one time only in the semester immediately following, subject to space availability, after submitting an "Intent to Return to Nursing Course Form." This form may be found on the KCC Nursing Department website under "Forms." This must be completed with a plan of success that demonstrates significant changes in how the course material will be mastered when repeated. Only one required nursing course may be repeated. The minimum grade for clinical courses that are repeated is a "B".

The appeal process for students, who receive a grade of less than "C-" or "B" in a repeated course, is to appeal the Nursing Department's Retention Criteria. A letter should be submitted to the Chairperson with a detailed explanation of the reasons that contributed to the failing grade. Documentation, when available should also be submitted. The student's appeal is then presented to the faculty at a Department meeting. A vote is taken by all full-time faculty members after reviewing the appeals documentation, the student's course history and input from faculty members who taught the student in clinical, lecture and/or lab. The student will be notified about the outcome of the appeal by the Department.

PLEASE NOTE: A student who receives a grade of D+ or lower in a clinical nursing course will be out of the program and will not be allowed to continue unless their appeal of the retention criteria is granted.

Drug Calculation Review Policy

Throughout the program, drug calculation, knowledge and skills will be integrated and tested in every nursing course except NUR 1800. Each semester students will be required to take a dosage calculation proficiency exam during the first week of the semester and achieve a grade of 80%. If a student is unsuccessful, they are required to attend remediation workshops followed by retesting until successful. Students will not be permitted to administer medications in the clinical area until they have passed the exam. Failure to administer medications my result in a failing grade for the course.

Fatigue

Fatigue can certainly impair a health care worker's ability to provide safe, professional nursing care. It is the policy of the Nursing Department that all students need to carefully assess his/her level of fatigue, school requirements in terms of lecture, on-campus labs and clinical experiences and own work schedules. This assessment should carefully consider the potential impact of excessive employment on his/her ability to provide safe, professional nursing care. Each student has an ethical responsibility to ensure that fatigue does not negatively impact on patient care and student nurse's responsibilities.

<u>Netiquette</u>

- Be mindful that electronic communication does not convey facial expression or tone of voice. It is important to consider that what is written could be misinterpreted.
- Typing messages all in caps is regarded by most Internet uses as shouting; so unless you mean to yell at someone, type your message in standard format.
- It is appropriate to share your point of view as well as indicate disagreements with another's posts- however, it is not appropriate to make negative personal statements about another's posts.
- Since many people read their email on small screen devices, when appropriate, be brief.
- Clearly indicate the nature of your email message in the title of the communication.
- It you send an email from a personal email account, sign the message. Often the names of personal email accounts are different from a person's given name. Use the KCC email whenever possible.

Civility

Kingsborough Community College is committed to the highest standards of academic and ethical integrity, acknowledging that respect for self and others is the foundation of educational excellence. Civility in the classroom and respect for the opinions of others is very important in an academic environment. It is likely you may not agree with everything that is said or discussed in the classroom. Courteous behavior and responses are expected. Therefore, in any classroom, acts of harassment and/or discrimination based on matters of race, gender, sexual orientation, religion, and/or ability will not tolerated. All persons have a right to be in a safe environment, free of disturbance and civil in all aspects of human relations.

<u> Plagiarism</u>

Plagiarism is the act of presenting another person's ideas, research or writings as your own. The following are examples of plagiarism, but is by no means an exhaustive list.

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.

- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

Use of Mind-Altering Substances

Possession, use or distribution of illicit drugs or alcohol while in class or on campus is prohibited. Refer to the <u>KCC Student Handbook</u> for the Rules on Campus Conduct. The affiliating clinical agencies have strict policies regarding substance use and abuse. When assigned to an agency for your clinical experiences, the student is expected to comply with the clinical agency's requirements.

The KCC Code of Conduct

The Department of Nursing enforces the KCC Code of Conduct. Therefore:

- If the student has a medical condition that may mimic signs of confusion, disorientation or other impaired mental functioning, the faculty must be notified. For example, hypoglycemia that occurs with diabetes can cause these signs.
- If the student is taking a mind-altering drug by prescription, this information must be reported to the faculty for consultation and guidance. Medications that may impair thinking and reasoning include antihistamines or narcotic analgesics, among others.
- If the student is suspected of using a mind-altering drug (legal or illegal) or alcohol while on campus, he/she is subject to the College policies.
- If the instructor, agency staff nurses, patients, or other students suspects that the student is under the influence of a mind-altering drug (legal or illegal) or alcohol while in a clinical agency, the student is subject to the policies of that agency as well as the College, which may include blood and urine drug screening at the student's cost. The student will be dismissed from the clinical area immediately and will not be permitted to return to the clinical area until test results are available.
- If the student tests positive for illegal drugs or alcohol, he/she is subject to immediate disciplinary action. Options include mandatory counseling, course failure, probation, or dismissal from the Program.
- If the student is a LPN and tests positive for illegal drugs or alcohol, the Nursing faculty are bound by professional ethics and licensure laws to report the student to <u>The New</u> <u>York State Education Department (SED)</u>, Office of the Professions.

Integrity

It is expected that students will be honest in <u>all</u> academic and clinical situations and perform independently on all tests, written assignments and turn in work that is their own. Any form of cheating <u>or</u> attempting to cheat will result in an F course grade. Students who knowingly collaborate in cheating by assisting others will also be held equally responsible. Learning assistance materials in the lab are for use by all nursing students and are to remain there. Removal of such items by individual students jeopardizes the learning of all other students and is considered a breach of integrity.

Students will demonstrate professional behavior on campus and in the clinical area, as evaluated by the professional nursing faculty. Unprofessional and unethical behaviors will also result in an F course grade. Examples, although not inclusive, are: belligerent behavior: verbal and non-verbal; lying; rudeness to patients, family members, staff, peers or faculty; threats of

physical aggression or any act of violence; removing property (any item) from the clinical agencies or the college; illegal drug/alcohol use before or during class or clinical hours.

Deliberately entering incorrect or false information into a patient health record is another form of cheating that is illegal with potentially career-ending consequences.

Accidents / Injury / Incidents During Clinical Experiences

A student who is injured during a clinical agency experience must be examined and treated in the emergency department and/or by a private physician. Health clearance must be obtained from the Office of Health Services before the student can return to the clinical agency. Relevant incident reports for the agency and Kingsborough, must be completed by the faculty and student.

Students who have any change in their health status during the semester (due to injury, illness, pregnancy/childbirth) are required to submit documentation to the Office of Health Services. Students must receive clearance from this Office prior to returning to clinical agency experiences.

Student Employment

Students may be employed as health care providers, performing functions for which they have been trained by the hiring institution and for which the hiring institution has a clearly discernible policy in writing defining the scope of these functions. Any individual not licensed in the State of New York to practice professional nursing and who engages in such practice is doing so illegally and may be prosecuted accordingly. Supervision by a professional, licensed nurse does not provide protection to the student or make the students actions legal.

Students who are employed by health institutions with titles such as Nurse Assistant, Nursing Care Technician; Student Nurse Intern or Extern, etc. should be aware of the following:

- Kingsborough Community College and the Department of Nursing assumes no responsibility or authority for their activities as an agency employee.
- The student is personally responsible and liable for an action performed or actively participated in as an agency employee.
- CUNY's malpractice insurance coverage applies ONLY to student performance during regularly schedules clinical class which is taught by nursing faculty member. The student is advised to obtain outside malpractice insurance when employed by an agency.
- Individuals who practice illegally may jeopardize their future. Person who are convicted or violate the *New York Nurse Practice Act* may not be eligible for licensure in New York State.
- While on duty as an agency employee, students shall not be identified as a Kingsborough Community College nursing student. The Kingsborough Community College patch and identification badge are not to be worn while acting as an agency employee.
- Students are discouraged from working hours that will interfere with clinical and scholastic performance.
- Students employed in health care agencies are required to complete the Health Care Employment Status form. Students may not complete their clinical experiences in the agency in which they work.

Faculty and Student Communication

Clear and accurate communication is a key component to the education process and quality health care. Students should communicate problems/concerns/issues initially with the course lecturer/clinical/laboratory faculty member. If the problem is not resolved the next step is to discuss the issue with the Course Coordinator. After this, then the Deputy Chairperson and finally Department Chairperson may be consulted.

GOVERNANCE

Student Participation in Governance

There are ample department and college wide opportunities for students to participate in governance where students and faculty work together to make decisions in areas of governance and leadership training. Opportunities are available on the Nursing Student Club, College Council, the Kingsborough Community College Association, and many other college-wide committees.

Curriculum Committee

Students are encouraged to assume an active role in the curriculum development. Voluntary student representatives from each clinical nursing course are invited to each Curriculum Committee meeting. Meetings are held at least monthly during non-class hours to allow for student involvement. The faculty utilizes their valuable input in making curriculum change decisions. A calendar of meeting dates is distributed to all students at the beginning of each semester.

Nursing Student Club

Every nursing student is automatically a member of the Nursing Club. The Nursing Club is a campus organization that provides opportunities for support, assistance and collaboration for clinical nursing students. Club involvement can introduce a student to new cultural experiences and help develop valuable leadership and organizational skills required in all aspects of life.

Nursing Student Club Bylaws

Purpose and Function

- 1. To have direct input into standards of nursing education and to influence the educational process.
- 2. To influence health care, nursing education and practice through political education as appropriate.
- 3. To promote and encourage participation in community affairs and resolution of related social issues.
- 4. To actively participate in the political process in all matters affecting nursing as a profession.
- 5. To represent nursing students to the consumer, to institutions and other organizations.
- 6. To promote and encourage students' participation in interdisciplinary activities.

7. To promote and encourage recruitment efforts, participation in student activities, and educational opportunities regardless of race, color, creed, sex, lifestyle, national origin, age, or economic status.

Duties of the Officers

The duties as listed here are general duties of the four main officers.

A. The President

- 1. Understand and follow the organization's bylaws.
- 2. Set an example for your organization by being fair, courteous and obeying the rules.
- 3. Represent your group, or see that a person is appointed to represent your group, at all campus meetings where representation is requested.
- 4. Carry out the group's decisions and wishes even though you personally do not agree completely with the decision reached.
- 5. Know the school policies and regulations and see that they are followed at all meetings and activities of your organization.
- 6. Keep your advisor informed of all meetings, make certain that he/she is invited to all meetings and be certain that he/she is consulted before making plans for special meetings and events. (The college expects and requires that your advisor attend all organizational activities. Show him/her the courtesy of checking to make certain that he/she can attend before plans are started for any activity).
- 7. Know the duties of the other officers and help them in carrying them out.
- 8. Appoint committees to assist in getting things done, to help spread the burden of work among all club members, and to give others an opportunity to participate. He/she is responsible for seeing that they complete their assignments.

B. The Vice President

- 1. Take over the president's responsibilities when the president is unable to carry out his/her duties for any reason. Because of this, the vice president must be familiar with all the duties of the president.
- 2. Be ready to assist the president in any way possible.
- 3. Assume and carry out all special duties that may be assigned to you by the president, executive committee or members.
- 4. Know and understand the organization's bylaws.

C. The Secretary

Act as secretary for the organization as a whole and is responsible for all correspondence related to the organization.

D. The Treasurer

- The treasurer is responsible for all funds of the organization, and signs all requisitions along with the advisor for the withdrawal of funds from the KCC Association Account. (The Director of Student Life must also sign Requisitions).
- 2. Make certain the organization expends money in keeping with the approved budget and within college policy and regulations.

SERVICES

Clinical Advisement

Consultation with the Nursing faculty is a crucial step when planning one's academic program. Formal advisement is available during the period scheduled by the college. Please refer to the KCC Academic Calendar. Appointments can be scheduled through the Nursing Department office staff. At other times, individual conferences may be scheduled with the Nursing Department faculty. To ensure that your advisor has adequate time to answer your concerns, make an appointment. When you "drop in" for advice, remember that your advisor may have other responsibilities or tasks planned for that hour.

Placement in Clinical course sections varies each semester based on agency availability and is subject to change. Student may submit a clinic request on the Clinical Request Form with an appropriate reason for the request (i.e. religious reasons, childcare) by the assigned date. The Chairperson and the Deputy Chairperson makes all clinical section placements with the student's request in mind but reasonableness of the request and clinical availability are taken in consideration. There are limited clinical agency sites and days available, and students may need to make accommodations. **Students who are employed in a health care agency cannot be assigned to that agency for clinical classes and must notify the department**.

Tutoring Services

Tutoring can provide valuable assistance and often may be key to academic success. The Tutorial & Academic Support Center (L-605) provides well-trained tutors to help with most subjects. All tutoring is free. Hours are Monday-Thursday 9-8:15pm, Friday 8-4pm. Contact them at (718) 368-5118, as early in the semester as possible to ensure you get the services you need. <u>https://tour.kingsborough.edu/html/FAC_2019110838664.html</u>

Nursing course tutors are scheduled each semester. Dates and times are posted on each course Blackboard site and on the door of the Nursing Resource Lab (M 421).

Financial Aid

<u>Kingsborough's Financial Aid Office</u> is located in Room U-201. You can reach them by phone at (718) 368-4644.

NURSING ACADEMIC COURSES

Clinical Courses

NUR 1700 – CALCULATIONS FOR MEDICATION ADMINISTRATION (1 credit. 2 hours.)

The course introduces beginning level students to acquire knowledge and develop proficiency for accurately computing medication dosages for various methods of administration to patients across the lifespan. Topics include systems of measurement, equivalents and conversions, selected abbreviations and computation of medication dosages. Content will be reinforced and tested in subsequent nursing courses. It is essential for students to engage in additional practice in order to develop proficiency. Provisions are available for additional time and tutorial assistance in the college laboratory. Classroom instruction will be held weekly throughout the semester.

Pre-Requisite: Passing grade on the COMPASS Math Skills Test or Math M200; Pre or Co-Requisite: NUR 1800 or the equivalent

NUR 1800 – FUNDAMENTALS OF NURSING (7 credits. 13 hours.)

Beginning level clinical nursing students are introduced to basic nursing knowledge and skills including dependent, independent and interdependent functions of the nurse. This course is designed to introduce the beginning student to the following concepts: Quality and Safety for Nurses (QSEN) Initiative incorporating patient centered care, teamwork and collaboration, evidenced based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs.

Classroom instruction and laboratory sessions, at the college and in selected health agencies, are held weekly throughout the semester. During the college laboratory, concepts and principles discussed in previous classes are used as the basis for performing therapeutic nursing interventions. The health agency experiences are utilized to extend learning. Each clinical experience is preceded and followed by a conference where the expected course student learning outcomes are discussed and evaluated. Individual and group assignments are utilized for laboratory experiences. Class work for the typical week consists of: classroom instruction – four (4) hours, college laboratory – two (2) hours and health agency experiences – seven (7) hours. It is mandatory for students to engage in additional practice for the development of skills. Provisions are available for additional time in the college laboratory for practice. **Pre-Requisites: BIO 1100, PSY 1100, SCI 2500; ENG 1200 or ENG 2400 if exempt from ENG 1200; Pre or Co-Requisites: NUR 1700, BIO 1200**

NUR 2100 – NURSING THE ILL ADULT I (9 credits. 16 hours.)

Nursing the adult patient with common recurring health problems includes nursing interventions based on physiological and psychological needs of adult patients. This course introduces the students to the nursing care of the adult patient who has common recurring health problems. The physiological and psychological needs of the adult patient are addressed through Quality and Safety for Nurses (QSEN) Initiative incorporating the concepts of patient centered care, teamwork and collaboration, evidence based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs.

Classroom instruction and laboratory sessions, at the college and in selected health agencies, are held weekly throughout the semester. Learning is enhanced through simulations performed weekly in the college laboratory. Class work for typical week consists of: five (5) hours of classroom instruction, three (3) hours of college laboratory/simulation, and eight (8) hours of health agency experiences. Laboratory sessions are on campus and in hospitals or other health agencies. It is essential for students to engage in additional practice for further development of skills. Provisions are available for additional time in the college laboratory for practice.

Pre-Requisites: NUR 1700, NUR 1800; Pre or Co-Requisite: BIO 5100 (Students cannot continue in NUR 2100 if they withdraw from BIO 5100)

NUR 2200 – NURSING THE ILL ADULT II (5 credits. 17 hours. One-half semester)

Nursing of the adult patient with common recurring health alterations includes advanced nursing interventions based on physiological and psychological needs of adult patients. This course builds on concepts of commonly recurring health alterations presented in Nursing the III Adult I (NUR 21). The physiological and psychological needs of the adult patient are addressed through Quality and Safety for Nurses (QSEN) Initiative incorporating the concepts of patient centered care, teamwork and collaboration, evidence based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs. The principles of priority setting, leadership and delegation are incorporated throughout the course.

Class work for typical week consists of: six (6) hours of classroom instruction, three (3) hours of college laboratory/simulation, and eight (8) hours of health agency experiences. Laboratory sessions are on campus and in hospitals or other health agencies. It is essential for students to engage in additional practice for further development of skills. Provisions are available for additional time in the college laboratory for practice.

Pre-Requisite: NUR 2100; Pre or Co-Requisite: PSY 3200; Recommended: SOC 3100 and ENG 2400

NUR 2000 – NURSING THE EMOTIONALLY ILL (4 credits. 14 hours. One-half semester)

This course focuses on Nursing care of emotionally ill patients who are experiencing difficulty meeting psychosocial needs. It also focuses on how emotional illness affects the needs of the individual and family in their efforts to adapt to stressors. The physiological and psychological needs of the patient are addressed through Quality and Safety for Nurses (QSEN) Initiative incorporating the concepts of patient centered care, teamwork and collaboration, evidence based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs. Students are also introduced to the principles of management of patient groups.

Class work for a typical week consists of: five (5) hours classroom instruction, one (1) hour weekly college laboratory/simulation, and eight (8) hours of health agency experiences. It is essential for students to engage in additional practice for further development of skills. Provisions are available for additional time in the college laboratory for practice.

Pre-Requisite: NUR 2100; Pre or Co-Requisite: PSY 3200; Recommended: SOC 3100 and ENG 2400

NUR 1900 – FAMILY CENTERED MATERNITY NURSING (4 credits. 14 hours. One-half semester)

This course present facts, principles and concepts relevant to the care of individuals and families during the reproductive years of the life cycle and introduces the student to family centered maternity nursing. Recognizing the impact of pregnancy on the individual and family, the student develops an awareness of the physiological and psychosocial needs of the patient that may occur during the childbearing years. This is addressed through Quality and Safety for Nurses (QSEN) Initiative incorporating the concepts of patient centered care, teamwork and collaboration, evidence based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs.

Classroom instruction and laboratory sessions, at the college and in selected health agencies, are held weekly throughout the semester. Class work for the typical week will consist of: five (5) hours of classroom instruction, one (1) hour college laboratory/simulation, and eight (8) hours health agency experience. It is essential for students to engage in additional practice for the maintenance of skills.

Provisions are available for additional time in the college laboratory for practice **Pre-Requisites: NUR 2000 and NUR 2200; PRE or Co-Requisites: SOC 3100, ENG 2400**

NUR 2300 – NURSING OF CHILDREN (5 credits. 17 hours. One-half semester)

This course introduces the students to nursing care of children, from infancy through adolescence, and their families. The students will develop an awareness of the physiological and psychosocial needs of children. The needs of the children are addressed through Quality and Safety for Nurses (QSEN) Initiative incorporating the concepts of patient centered care, teamwork and collaboration, evidence based practice, safety, quality improvement and informatics; the Nursing Process; and the Categories of Client Needs.

Learning experiences will include health care maintenance of children as well as concepts relevant to hospitalized children. Class work for typical week consists of: six (6) hours of classroom instruction, three (3) hours of college laboratory/simulation, and eight (8) hours of health agency experiences. Laboratory sessions are on campus and in hospitals or other health agencies. It is essential for students to engage in additional practice for further development of skills. Provisions are available for additional time in the college laboratory for practice.

Pre-Requisites: NUR 2000, NUR 2200; Pre or Co-Requisites: SOC 3100, ENG 2400

NUR 2400 - ISSUES IN NURSING (1 credits. 1 hours.)

This course is a survey of issues/transitions faced by the beginning Associate Degree Nurse as an individual and as a member of the nursing profession. The history of nursing, the role and responsibilities of the nurse, legal aspects of practice and issues and current trends in nursing are discussed. Instruction may be in the classroom, online, or both (hybrid).

Pre-Requisites: NUR 2000, NUR 2200; Pre or Co-Requisites: NUR 1900, NUR 2300, SOC 3100, ENG 2400

Nursing Elective Courses

Nursing students may choose to take nursing elective courses when they are offered to supplement their knowledge.

- NUR 2700 -- Pathophysiology (3 credits. 3 hours.) Physiologic and pathophysiologic mechanisms that act singly or in direct concert to produce alterations on a cellular, tissue, organ, system level, as well as on the total human organism. Emphasis is placed on underlying concepts that create recurrent patterns of cellular dysfunction and in the progression to alterations in system function and interweaves development across the lifespan with disease processes. Pre/Co-requisites: BIO 1200, Science 2500 or Department permission
- NUR 2900 -- Alternative Health Care Modalities (3 credits. 3 hours.) Introduction to complementary and alternative health care treatments such as herbal remedies, massage, acupuncture and meditation and their use in both disease management and health promotion.
- NUR 4200 -- Parenting (3 credits. 3 hours.) Theory and concepts related to the interaction between parents and children from infancy to early adulthood. Participants explore effective parenting skills to assist in personal growth.

- NUR 4300 -- Perspectives on Death and Dying (3 credits. 3 hours.) The dynamics of death and dying for the purpose of understanding one's own feelings and attitudes so that meaningful assistance may be given to the dying individual and family are examined. The ethical/moral and legal problems arising from such controversial issues as advanced medical treatment; strategies, abortion, suicide, and euthanasia are explored. Prerequisites: PSY1100, SOC 3100 or department permission. Open to all students.
- NUR 4400 -- Diet in Health and Illness (2 credits. 2 hours.) The nature of food and fluid intake in healthy and ill individuals. Cultural differences, the age variable and dietary modifications are examined. Prerequisite: NUR 1800
- NUR 4500 -- Pharmacology in Health and Disease (3 credits. 3 hours.) Intended for individuals of any background who desire information regarding safe use of prescription and non-prescription drugs. Emphasis will be placed on the impact of safe drug use on promoting and maintaining health. This course will also examine how drugs affect the body by changing many of its normal mechanisms and thereby contributing to health problems.

Prerequisites: NUR 1800

- NUR 4600 -- Transcultural Perspectives in Health Care (3 credits. 3 hours.) Introduction to the field of transcultural health care. Provides an anthropological approach to healing, health values, and practices of select groups. Explores the roles of health professionals in reconciling ethnocentric health care values with health practices of culturally diverse groups.
 Prerequisite: NUR 1800
- NUR 4700 Nursing in the Community (3 credits. 3 hours.) Introduction to current home health care delivery systems; regulatory agencies; reimbursement mechanisms (insurance, private pay, Medicaid, Medicare); and roles and levels of health care providers. Proposed Federal, State, City, and private initiatives; planned changes in utilization and providers as well as accreditation and quality improvement programs will be explained. Options and skills to negotiate and obtain home care services for families and individuals will be discussed.
 Prerequisites: NUR 1800

NUR 4800 -- Introduction to Basic Health Assessment and Physical Examination of the Adult

(3 credits. 4 hours.)

Introduction to the basic knowledge and skills required to perform a comprehensive health assessment of an adult. The compilation of a health history, interview techniques and a regional approach to the physical examination of the adult will be introduced and practiced. A synthesis of the physical, psychosocial, developmental and cultural assessments will prepare students to develop a holistic statement of the health status of an adult individual.

Prerequisite: NUR 1800

• NUR 4900 -- EKG Rhythm Recognition (3 credits. 3 hours.) An intermediate level course that builds on basic cardiac knowledge. The advanced knowledge and skill necessary to visually recognize, understand, and treat cardiac rhythm disturbances.

Prerequisite: NUR 1800 or Department permission

• NUR 5100 – End of Life Issues, Hospice and Palliative Care (3 credits 3 hours.) The role of the nurse, physician, other health care professional and caretakers in the provisions of care for the dying patient and family members. The students will gain knowledge of end of life issues, care, understanding the philosophy of hospice and palliative care, and identify appropriate interventions when working with the terminally ill patient and grieving family members.

Prerequisite: PSY 1100 and/or Department permission
