

Recycling

Reduce chemical waste.

Completed
Recycle fluorescent bulbs, batteries, computers, waste oil, and antifreeze.

Reduce solid landfill & incinerator waste generated by campus.

Installed paper, plastic, can recycling points throughout the campus.

Recycle vegetable oil from cafeteria.

Retrofit of Kingsborough's Green boat to use recycled oil for fuel.

Save trees by recycling cardboard and paper

Placed recycle bins for paper in offices. Retained Royal Recycling Solution to pick up and recycle cardboard quarterly.

Reduced the usage of the U.S. Mail System for student communications by 75% with current technology such as e-mail, texting, blackboard and the use of the internet community site, i.e. Facebook & My Space, etc.

In Progress

Install bottle return vending machines.

Implement New York State's Bottled Beverage Recycling Bill

Offer student clubs the opportunity to collect return deposit bottles on campus (only) to utilize refund money collected for student club activities.
