# KINGSBOROUGH COMMUNITY COLLEGE <br> Curriculum Committee Meeting <br> Thursday, October 30, 2014 <br> 2:00 P.M. - 4:00 P.M. <br> President's Conference Room 

## I. SPECIAL ACTIONS- CHANGE IN/ADDITION OF ACADEMIC POLICY

## A. Department of Nursing

1. EMS Admissions Criteria

## FROM:

To be considered for the Paramedic Program, students must pass the CUNY Reading and Writing exams and parts 1 and 2 of the COMPASS Math Skills Test orMAT A2OO. Students must be out remediation in order to take EMS 100.

N/A

Students must also have a minimum of 200 patient contact hours as an Emergency Medical Technician (EMT) prior to registration for any paramedic-level courses, starting with EMS 210.
N/A
To complete the program, students must achieve a minimum average of 2.0 in all courses required for the program. Gourses from other colleges to be applied toward program requirements must have official transcripts of the courseswith final grades.
In order to receive an Emergency Medical ServicesParamedic A.A.S., a student is required to have completed the final 24 credits toward that degree while enrolled at Kingsborough.

TO:
To be considered for the Paramedic Program, students must pass the CUNY Reading and Writing exams and parts 1 and 2 of the COMPASS Math Skills Test OR satisfy all requirements for existing developmental coursework.

Students must complete BIO 11, ENG 12, EMS 100, and EMS 101 with a minimum grade of " C " as well as two of the following courses: BIO 12, ENG 24, PSY 11, and any 3-credit Math and Quantitative Reasoning course with a minimum grade of " $C$ " prior to placement in the first paramedic-level course (EMS 210).
Students must also have a minimum of 200 patient contact hours as an Emergency Medical Technician (EMT) prior to registration for EMS 210.

Students must meet with the Program Director.

TO:

1. Earn a minimum of a " C " grade in the following general education courses: ENG 12, ENG 24,BIO 11, BIO 12, PSY 11, and any 3-credit Math and Quantitative Reasoning course. Students who earn less than a grade of " C " may repeat the course ONE TIME (except BIO 11 or 12) and must earn at least a grade of " $B$ " in the repeated course. Students may not repeat BIO 11 or BIO 12 or more than two general education courses.

## 2. Earn a minimum grade of " $C$ " in all EMS courses.

3. Earning less than a "C" grade in an EMS course may repeat the course ONE TIME (subject to space and availability). The minimum grade for courses that are repeated is a " B ".
4. Who earn a second grade of less than a " $B$ " in any EMS course will be dismissed from the Paramedic Program.

Any student who has not attended EMS courses for two or more consecutive semesters cannot be readmitted into the Paramedic Program unless qualifying examinations have been passed in sequential order of the courses previously completed. These qualifying examinations can be repeated only once. In addition, the student must demonstrate clinical competency by passing a clinical practical examination prior to returning to any of the clinical courses.

## N/A

## Paramedic Clinical Courses

Following the successful completion of the EMT component of the program, students will enroll in paramedic-level clinical courses and will participate in actual patient care on ambulances and in various departments at different hospitals.

## Course Completion:

The student must complete the following courses prior to placement in the first paramedic-level course (EMS 210): EMS 100, EMS 101, ENG 12, ENG 24, BIO 11, BIO 12, PSY 11, and any 3 credit Math and Qurantitative Reasoning course.

1. Earn a minimum of a " C " grade in the following general education courses: ENG 24, BIO 12, PSY 11, and any 3credit Math and Quantitative Reasoning course. Students who earn less than a grade of "C" may repeat the course ONE TIME and must earn at least a grade of "C" in the repeated course. Students may not repeat more than two general education courses.
2. Earn a minimum grade of " $C$ " in all EMS courses.
3. Earning less than a " C " grade in an EMS course may repeat the course ONE TIME (subject to space and availability). The minimum grade for EMS courses that are repeated is a "C".
4. Who earn a second grade of less than a "C" in any EMS course will be dismissed from the Paramedic Program.

Any student who has not attended EMS courses for two or more consecutive semesters cannot be readmitted into the Paramedic Program unless qualifying examinations have been passed in sequential order of the courses previously completed. These qualifying examinations can be repeated only once. In addition, the student must demonstrate clinical competency by passing a clinical practical examination prior to returning to any of the clinical courses.

In order to receive an A.A.S. in Emergency Medical Services- Paramedic, a student must complete the final 24 credits toward that degree while enrolled at Kingsborough.

Paramedic Clinical Courses

Following the successful completion of the EMT component of the program, students will enroll in paramedic-level clinical courses and will participate in actual patient care on ambulances and in various departments at different hospitals.

## 3. Nursing Retention Criteria

FROM:
Students must achieve a grade of "B" in order to pass NUR 1700.
4. Polysomnographic Technology Retention Criteria

FROM:
None

## 5. Surgical Technology Admissions Criteria

FROM:
Admission Requirements
To be considered for the Surgical Technology Program, students must pass the CUNY Reading and Writing exams and the COMPASS Math Skills.

## TO:

Students must achieve a grade of " B " in order to pass NUR 1700. Students in NUR 1700 who achieve a failing grade of no less than "C-" may repeat the course one time only after submitting an intent to return form.

## TO:

Retention criteria
Criteria for retention in the Polysomnographic Technology Program mandates that students:

1. Receive no more than two grades below "C" in any of the general education pre-requisite courses.
2. Earn a minimum of "C" in all Polysomnographic Technology (PSG) courses.
3. Earning less than a " $C$ " grade in a PSG course may repeat the course ONE TIME (subject to space availability) and must earn at least a grade of " $C$ " in the repeated course.
4. Earning a grade of less than "C" in any repeated PSG course will be dismissed from the Polysomnographic Technology Program.
Any student who has not attended PSG courses for two or more consecutive semesters cannot be readmitted into the Polysomnographic Technology Program unless qualifying examinations have been passed in sequential order of the course previously completed. These qualifying examinations can be repeated only once. In addition, the student must demonstrate clinical competency by passing a clinical practical examination prior to returning to any of the clinical courses.

## TO:

Minimum Entrance Requirements
To be considered for the Surgical Technology Program, students must pass the CUNY Reading and Writing exams and the COMPASS Math Skills Test or satisfy all requirements for existing developmental coursework.

The student must achieve a minimum average of 2.5 in alt courses required for the program. Courses from other colleges to be applied toward program requirements must have grades submitted for them.
N/A

The student must achieve a minimum grade of "C" in BIO 11 and ENG 12 for consideration for the program. Courses from other colleges to be applied toward program requirements must have grades submitted for them.
In order to apply for the Surgical Technology program, the student must obtain a Change of Curriculum form at the Office of the Registrar, meet with a counselor to discuss your academic performance and obtain the counselor's signature. After obtaining your counselor's signature, you must obtain the signature of the chairperson or designee of the department of your current curriculum. Finally, the completed form must be submitted to the Nursing Department Office, M-401, where you will be instructed to meet with the Program Director during office hours.

After final grades have been recorded for the semester in which you submit a change of curriculum form, your request is reviewed by the Nursing Department. Despite submission of the change of curriculum form to the Nursing Department, the Registrar will not be informed of any change in curriculum status until the end of the fall semester, after prospective applicants have completed all entrance requirements and have met with the Program Director. The Registrar will notify students of the effected change, and the Program Director will send a letter of acceptance or denial in January before the start of the spring semester. Due to limited clinical site availability, enrollment in the Program is limited. Therefore, completion of the pre-requisite courses with a minimum grade of " C " is not a guarantee of admission into the Surgical Technology program.

## TO:

Retention Criteria
Criteria for retention in the Surgical Technology Program mandates that students:

1. Receive no more than two grades below " $C$ " in any of the pre or co-requisite courses with the exclusion of ENG 1200 and BIO 1100, which must be a minimum grade of " C ".

[^0]3. Students earning less than a "C" grade in a Surgical Technology Course may repeat the course one time (subject to space availability). The minimum grade for courses that are repeated is a " B ".
4. A second earned grade of less the " $C$ " in any Surgical Technology course will result in dismissal from the Program.
5. Clinical Performance in the Practicum must be ata satisfactorylevel to remain in the program.
Any student who has not attended nursing courses for two or more consecutive semesters cannot be readmitted into the Surgical Technology Program unless qualifying examinations have been passed in sequential order in the courses previously completed. In accordance with the retention criteria of the Nursing Department, these examinations can be repeated only once. In addition, the student must demonstrate clinical competency by passing a Clinical Practicum examination prior to returning to any of the clinical courses.

## II. CHANGE IN DEGREE TYPE

## A. Department of Health, Physical Education and Recreation

## FROM:

## A.A.S. in Physical Education, Recreation and Recreation Therapy

## CUNY CORE

REQUIRED CORE:

## ENG 1200

ENG 2400
Mathematical and Quantitative Reasoning
Life and Physical Sciences

## FLEXIBLE CORE

Complete nine credits or three courses from three different groups (see catalog groups A-E). Courses that satisfy each group, A through E, are listed in the Program and Course Requirements section of the KCC Catalog. Courses taken to satisfy the Flexible Core should be carefully selected for transfer to the B.S. or B.A. in Physical Education, Recreation and Recreation Therapy, and Sport Management.
Recommended courses:
3. Students earning less than a " C " grade in a Surgical Technology Course may repeat the course one time (subject to space availability). The minimum grade for courses that are repeated is a " B ".
4. A second earned grade of less the " C " in any Surgical Technology course will result in dismissal from the Program.

Any student who has not attended surgical technology courses for two or more consecutive semesters cannot be readmitted into the Surgical Technology Program unless qualifying examinations have been passed in sequential order in the courses previously completed. In accordance with the retention criteria of the Nursing Department, these examinations can be repeated only once. In addition, the student must demonstrate clinical competency by passing a Clinical Practicum examination prior to returning to any of the clinical courses.

3 Linear Algebra (MAT 5600)

8 Choose two courses from: Advanced Programming
Techniques (CS 13A0) or Computers and Assembly Language Programming (CS 1400) or Finite Mathematics (MAT 1100) or Introduction to Set Theory (MAT 3200)
1 Critical Issues in Personal Health (HE 1400)
0 ELECTIVES

## IV. NEW COURSES

## A. Department of Art

1. ART 3000, Art and Activism, 3 CRS. 3 HRS.

Pre/Co requisite: NONE
B. Department of English

1. ENG 3300, Introduction to Literary Studies, 3 CRS. 3 HRS.

Pre-requisite: ENG 1200
C. Department of Mathematics and Computer Science

1. MAT 3200, Introduction to Set Theory, 4 CRS. 4 HRS.

Pre-requisite: Math 14 with a grade of " C " or better
D. Department of Nursing

1. EMS 81XX, Independent Study 1-3 CRS. 1-3 HRS.

Pre/Co requisite: NONE

## V. NEW 82 COURSES

A. Department of Art
1.ART 82XX, Medieval Art
B. Department of English

1. ENG 82XX, Creative Nonfiction
C. Department of History, Philosophy, Political Science
2. PHI 82XX, Business Ethics

## VI. COURSES FOR PATHWAYS APPROVAL

## A. Department of Art

1. Art 3000, Art and Activism- Flexible Core A: World Cultures and Global Issues

## B. Department of Health, Physical Education and Recreation

1. HS 4000, Drugs: The Individual and Society- Flexible Core

D: Individual and Society
2. HS 5200, Human Sexuality-Flexible Core D: Individual and Society

## C. Department of Physical Sciences

1. SCI 7000 The Science of Nutrition-Required Core: Life and

Physical Sciences and Flexible Core E: Scientific World

## VII. CHANGE IN PRE- OR CO-REQUISITE

## A. Department of Behavioral Science and Human

## Services

1. EDC 2100, Social Science in Education

FROM
Pre-requisites: EDC 200 or EDC 2000 with a minimum grade of "C" or better
Pre/Co requisite: HUM 8181 or HUM 200 and Any History or Political Science Course.

## 2. EDC 2200, Art Workshop in Education

FROM:
Pre-requisite: EDC 2100, EDC 3000, or department permission with a grade of " C " or better
Co-requisite: EDC 90A4 or EDC 9105 or EDC 9400

## 3. EDC 3100, Social Science in Childhood Education

 FROM:Pre-requisites: EDC 200 or EDC 2000 with a grade of "C" or better
Pre/Co requisite: HUM 8181 and Any History or Political Science course.

## 4. EDC 90A4, Seminar \& Practicum in Teacher Development

 FROM:Pre-requisite: ENG 1200; a passing score on the CUNY COMPASS or completion of mathematics remediation; EDC 2100 or EDC 3100, with a grade of "C" or better; and a minimum GPA of 2.75

Pre/Co requisite: PSY 3000 or PSY 3200
Co-requisite: EDC 2200

## TO:

Pre-Requisites: EDC 200 or EDC 2000 with a minimum grade of "C" or better
Pre/Co requisite: HUM 8181 or HUM 200

## TO:

Pre-requisite: EDC 2100 or EDC 3100 or EDC 3200 with a minimum grade of "C"
Co-requisite: EDC 90A4 or EDC 9105 or EDC 9400

## TO:

Pre-requisites: EDC 200 or EDC 2000 with a grade of "C" or better

Pre/Co requisite: HUM 8181 or HUM 200

## TO:

Pre-requisite: ENG 1200; a passing score on the CUNY COMPASS Math Assessment Test or completion of mathematics remediation; EDC 2100 or EDC 3100 or EDC 3200 , with a grade of " C " or better; and a minimum GPA of 2.80.

Pre/Co requisite: PSY 3000 or PSY 3200
Co-requisite: EDC 2200

## 5. EDC 9105, Supervised Instructional Experience in Education I

FROM:
Pre-requisite: EDC 2100 and EDC 3000, both with a grade of "C" or better and passing scores on the CUNY Reading and Writing exams.

Co-requisite: EDC 2200
6. EDC 9307, Supervised Instructional Experience in Education II

FROM:

Pre-Requisite: EDC 2200 and EDC 9105, both with a grade of "C" or better

Pre/Co requisite: EDC 2300

## B. Department of Nursing

1. EMS 101, EMT-Basic Clinical I

FROM:
Pre-requisite: EMS 100

## 2. EMS 210, Paramedic I

FROM:
Pre-requisite: EMS 101, BIO 12, ENG 2400, PSY 11, any 3credit Math course
Pre/Co requisite: EMS 211

## 3. EMS 211, Paramedic Clinical I

FROM:
Pre-requisite: EMS 101, BIO 1200, ENG 2400. PSY 1100, any 3-credit Math course
Pre/Co requisite: EMS 210
4. PSG 100, The Science of Sleep and Circadian Rhythms FROM:
Pre/Co requisite: ENG 1200, BIO 1100, MAT 900, and PSY 1100

## 5. PSG 101, Neuroscience and Pharmacology in Sleep

FROM:
Pre-requisite: NONE
Pre/Co requisite: PSG 102

## TO:

Pre-requisite: EDC 2100 and EDC 3000 or EDC 3200 with a minimum grade of " C " and passing scores on the CUNY Reading and Writing exams or completion of English remediation.
Co-requisite: EDC 2200

TO:
Pre-requisite: EDC 2200 and EDC 9105 with a minimum grade of "C" and Passing scores on the CUNY COMPASS
Math Assessment Test or completion of mathematics remediation

Pre/Co requisite: EDC 2300 and ENG 2400

## TO:

Pre/Co requisite: EMS 100

## TO:

Pre-requisite: EMS 101, BIO 1100 and ENG 1200
Co-requisite: EMS 211

## TO:

Pre-requisite: EMS 101, BIO 1100 and ENG 1200

Co-requisite: EMS 210

TO:
Pre/Co requisite: ENG 1200 and BIO 1100

## TO:

Pre-requisite: PSG 100
Co requisite: PSG 102 and PSG 106
6. PSG 102, Foundations of Polysomnography I

FROM:
Pre-requisite: PSG 100
Co requisite: PSG 101
7. PSG 103, Clinical Practicum in Sleep Medicine I FROM:
Pre-requisite: PSG 102, BLS certification and medical clearance from the internship site.

Co-requisite: PSG 104, PSG 105

## 8. PSG 104, Foundations of Polysomnography II

 FROM:Pre-requisite: PSG 101 and PSG 102
Co-requisite: PSG 103 and PSG 105
9. PSG 105, Clinical Polysomnographic Scoring FROM:
Pre-requisite: PSG 101 and PSG 102
Co-requisite: PSG 103 and PSG 105
10. PSG 106, Classification of Sleep Disorders FROM:
Pre-requisite: PSG 103, PSG 104, PSG 105

## 11. PSG 107, Cardiopulmonary Physiology in Sleep FROM:

Pre-requisite: PSG 106
Co-requisite: PSG 105

## 12. PSG 108: Clinical Practicum in Sleep Medicine II FROM:

Pre-requisite: PSG 106 and medical clearance from internship site
Co-requisite: PSG 107

## 12. ST 400, Surgical Procedures

FROM:
Pre/Co requisite: BIO 1100, NUR 4500

## TO:

Pre-requisite: PSG 100
Co requisite: PSG 101 and PSG 106

TO:
Pre-requisite: PSG 101, PSG 102, PSG 106, MAT 900, MAT 2000, BLS certification and medical clearance from the internship site,
Co-requisite: PSG 104, PSG 105

## TO:

Pre-requisite: PSG 101, PSG 102, and PSG 106 Co-requisite: PSG 103 and PSG 105

## TO:

Pre-requisite: PSG 101, PSG 102, and PSG 106
Co-requisite: PSG 103 and PSG 104

## TO:

Pre-requisite: PSG 100
Co-requisite: PSG 101 and PSG 102

## TO:

Pre-requisite: PSG 103, PSG 104, and PSG 105
Co-requisite: PSG 108

## TO:

Pre-requisite: PSG 103, PSG 104, PSG 105 and medical clearance from the internship site Co-requisite: PSG 107

## TO:

Pre-requisite: ST 300, ST 3P00
Co-requisite: ST 4P00
Pre/Co requisite: BIO 1200

## TO:

Pre-requisite: ST 100 or departmental permission

## 14. ST 4P00, Practicum II

FROM:
Pre-requisite: ST 300, ST3P00
Co-requisite: ST 400
15. ST 5P00, Practicum III

FROM:
Pre-requisite: ST 400, ST 4P00
Co-requisite: ST 500
16. ST 6P00, Practicum IV

FROM:
Pre-requisite: ST 500, ST 5P00
Co-requisite: ST 600

## VIII. CHANGE IN COURSE DESIGNATION

## A. Department of Health, Physical Education and Recreation

FROM:

1. HE 4000, Drugs: The Individual and Society

FROM:
2. HE 5200 Human Sexuality

## IX. CHANGE IN COURSE TITLES, CREDITS, HOURS

## A. Department of Communications and Performing Arts

1. MCB 4100

FROM:
Introduction to Television Production

## 2. MCB 4800

FROM:
Advanced Video Production

## 3. MCB 4900

FROM:
Digital Audio/Visual Production and Editing

## TO:

Pre-requisite: ST 300, ST3P00
Co-requisite: ST 400
Pre/Co requisite BIO 1200

TO:
Pre-requisite: ST 400, ST 4P00
Co-requisite: ST 500
Pre/Co requisite: BIO 5100

## TO:

Pre-requisite: ST 500, ST 5P00
Co-requisite: ST 600
Pre/Co requisite: ST 4500

TO:
HS 4000, Drugs: The Individual and Society
TO:
HS 5200, Human Sexuality

TO:
Television Studio Production

TO:
Advanced Television Studio Production

TO:
Media Production and Editing
4. MCB 5100

FROM:
Digital Audio/Visual Production and Editing II
5. THA 5500

FROM:
Stage Craft
B. Department of Foreign Languages

1. ARB 100, Elementary Arabic I

FROM:
3 CRS. 3 HRS.
2. ARB 200, Elementary Arabic II

FROM:
3 CRS. 3 HRS.
3. CHI 100, Elementary Chinese I

FROM:
3 CRS. 3 HRS.
4. CHI 200, Elementary Chinese II

FROM:
3 CRS. 3 HRS.
5. HEB 100, Elementary Hebrew I

FROM:
3 CRS. 3 HRS.
6. HEB 200, Elementary Hebrew II FROM:
3 CRS. 3 HRS.
D. Department of Nursing

1. PSG 103, Clinical Practicum in Sleep Medicine I FROM:
6 CRS. 12 HRS.
2. PSG 108, Clinical Practicum in Sleep Medicine II FROM:
6 CRS. 12 HRS.

TO:
Advanced Media Production and Editing

TO:
Introduction to Technical Theatre

## TO:

3 CRS. 4 HRS.

TO:
3 CRS. 4 HRS.

TO:
3 CRS. 4 HRS.

TO:
3 CRS. 4 HRS.

TO:
3 CRS. 4 HRS.

TO:
3 CRS. 4 HRS.

TO:
6 CRS. 24 HRS.

TO:
6 CRS. 24 HRS.

## X. CHANGE IN CATALOG DESCRIPTION

## A. Department of Biological Sciences

## 1. BIO 1100-BIO 1200 Human Anatomy \& Physiology I and II

## FROM:

A one-year, two-semester course in human anatomy and physiology. Examines complementary relationships between structure and function; dynamic aspects, integration of organs and organ systems in the maintenance of normal functioning of the whole organism. Dissections and other laboratory experiences including computer-assisted study of physiological principles. This course does not satisfy the Biology major elective requirement.

## 2. BIO 1300-BIO 1400 General Biology I and II

## FROM:

A one-year, two semester course for students who plan to major in biological sciences, or prepare for a pre-professional program. Classroom and laboratory sessions focus on biological topics as they apply to all life, to recent findings and how they advance understanding of classical concept, the interaction of environmental and biological forces to produce life.

## 5. BIO 2100, Comparative Anatomy

FROM:
Form, structure, classification, and adaptive modifications of vertebrates, animals with backbones. Through dissections, representative vertebrates (dog, fish and cat) are studied; vertebrates' major body systems and development of various representative structures are compared; relationships between form and function, and the use of certain structure in specific environments. This course satisfies the elective credit requirement for Biology majors.

## TO:

Not recommended for non-science majors. A one-year, two-semester course in human anatomy and physiology. Examines complementary relationships between structure and function; dynamic aspects, integration of organs and organ systems in the maintenance of normal functioning of the whole organism. Dissections and other laboratory experiences including computer-assisted study of physiological principles. This course does not satisfy the Biology major elective requirement.

## TO:

Not recommended for non-science majors. A one-year, two semester course for students who plan to major in biological sciences, or prepare for a pre-professional program. Classroom and laboratory sessions focus on biological topics as they apply to all life, to recent findings and how they advance understanding of classical concept, the interaction of environmental and biological forces to produce life.

## TO:

Form, structure, classification, and adaptive modifications of vertebrates, animals with backbones. Through dissections, representative vertebrates (dog, fish and cat) are studied; vertebrates' major body systems and development of various representative structures are compared; relationships between form and function, and the use of certain structures in specific environments. This course satisfies the elective credit requirement for Biology majors.

## 6. BIO 5800, Recombinant DNA Technology

## FROM:

The theory and application of recombinant DNA techniques includes study of genomics and proteomics, molecular aspects of recombinant DNA technology and genetic engineering, microbial, animal, and plant protein expression. Ethical, legal and social concerns surrounding the field of biotechnology are addressed. Basic biotechnological laboratory techniques required for the study of genomics, genetic engineering and recombinant DNA technology are conducted.

## 7. BIO 6500, Molecular and Cellular Biology

FROM:
The structure and functions of cell components are covered. Emphasis will be placed on the molecular composition of cells and the molecular mechanisms a cell uses to grow and divide. Experiments and computer exercises are designed around fundamental questions in eukaryotic cell biology with an emphasis on biochemical and molecular biological techniques.

## B. Department of Communications and Performing Arts

## 1. MCB 5000, Writing for the Electronic Media

## FROM:

Introduction to the various types of writing used in the electronic media and research necessary for each: commercials, news, reports, promotional and programming material, public service announcements, industrial/educational programs, drama, comedy and story boards.

## 2. THA 5500, Introduction to Technical Theatre

## FROM:

Introduction to scenery for live entertainment with special emphasis on the practice of scenic construction and installation. Participation in a theatrical production will be incorporated when possible. Basic backstage and workshop safety will also be covered.

## TO:

The theory and application of recombinant DNA techniques includes study of genomics and proteomics, molecular aspects of recombinant DNA technology and genetic engineering, microbial, animal, and plant protein expression. Ethical, legal and social concerns surrounding the field of biotechnology are addressed. Basic biotechnological laboratory techniques required for the study of genomics, genetic engineering and recombinant DNA technology are conducted. This course satisfies the elective credit requirement for Biology majors.

## TO:

Experiments and computer exercises are designed around fundamental questions in eukaryotic cell biology with an emphasis on biochemical and molecular biological techniques. This course satisfies the elective credit requirement for Biology majors.

## TO:

Introduction to the various types of writing used in the electronic media and research necessary for each: commercials, news, reports, promotional and programming material, public service announcements, industrial and educational programs.

## TO:

Introduction to Technical Production for live entertainment with special emphasis on the practice of scenic construction. Additionally, students will learn the basic skills that will allow them to function as productive members of the various crews that constitute a theatrical production. Backstage and Shop safety will be emphasized throughout.

## C. Department of English

## 1. ENG 7400, Themes in American Literature II

## FROM:

A survey of American literature and literary history from the end of the Civil War to the present. Consideration of many well-known writers (James, Hemingway, and Frost) as well as writings by women, Native Americans, Hispanics, and African Americans. Students will acquire a greater comprehension of historical, philosophical, political, religious, and literary forces that shaped American life during this period. Questions of what America represents and how it is represented in literary texts and history will be discussed.

## D. Department of Nursing

## 1. EMS-101, EMT-Basic Clinical I

## FROM:

EMS 101-EMT-Basic Clinical I (1 cr. 12 hrs. for six weeks) This course covers the New York State Department of Health Bureau of Emergency Medical Services curriculum for preparation as an emergency medical technician (EMT). It reviews material including but not limited to: infants and children; other special populations; ambulance operations; and working as part of a pre-hospital care team including paramedics. Lab work includes: bleeding control; CPR; patient assessment and management; splinting; patient immobilization; moving techniques; and weapons of mass destruction (WMD) awareness. Skills are subsequently demonstrated and evaluated in the laboratory, hospital and/or field setting. Students will participate in a series of clinical/field observations of 8-hour shifts either in an emergency department (clinical) or on an ambulance (field). Students must satisfactorily perform all practical skills in order to successfully complete the course. The number of minimum patient experiences is delineated. Some students, however, may be required to schedule additional shifts to acquire an acceptable minimum of competencies and experiences. Offered only during winter or summer module.

## TO:

A survey of American literature and literary history from the late 19th century to the present, examining works that depict urbanization, immigration, class conflict, and social change.

## TO:

EMS 101-EMT-Basic Clinical I (1 cr. 6 hrs.)
This course covers the New York State Department of Health Bureau of Emergency Medical Services curriculum for preparation as an emergency medical technician (EMT). It reviews material including but not limited to: infants and children; other special populations; ambulance operations; and working as part of a pre-hospital care team including paramedics. Lab work includes: bleeding control; CPR; patient assessment and management; splinting; patient immobilization; moving techniques; and weapons of mass destruction (WMD) awareness. Skills are subsequently demonstrated and evaluated in the laboratory, hospital and/or field setting. Students will participate in a series of clinical/field observations of 8 -hour shifts either in an emergency department (clinical) or on an ambulance (field). Students must satisfactorily perform all practical skills in order to successfully complete the course. The number of minimum patient experiences is delineated. Some students, however, may be required to schedule additional shifts to acquire an acceptable minimum of competencies and experiences.

## 2.ST 100, Surgical Technology I

## FROM:

Comprehensive study of the operative environment, professional roles, communications techniques and ethical responsibilities.

## 3. ST 200, Surgical Technology II <br> FROM:

Provides theoretical knowledge for the application of essential skills during the perioperative phase of patient care. It introduces the student to the practice of surgical technology with a focus on those skills necessary for function in the scrub role.

## 4. ST 300, Surgical Technology III

## FROM:

Principles and the practice of surgical technology with a focus on those functions that impact the circulating role.
Introduction to surgical pharmacology, anesthesia and wound healing physiology.

## 5. ST 400, Surgical Procedures <br> FROM:

Introduction to each anatomical system with a focused review of pathology in conjunction with those specific procedures performed. The instrumentation and surgical modalities of each specialty will be covered as they relate to the practice of Surgical Technology. Surgical specialties include General, Gastrointestinal, Biliary, Gynecologic, Ear-Nose and Thoracic Surgery, Plastic, and Pediatric Surgery.

## TO:

This introductory course intends to introduce the student to the broad field of Surgical Technology. The Basic, General information section introduces the student to the Perioperative environment and professional roles of the surgical team members. The Patient Care section is a comprehensive overview of the historical development of surgery and the practice of Surgical Technology. Professional conduct is discussed in conjunction with communication skills and surgical ethics.

## TO:

Provides theoretical knowledge for the application of essential skills during the perioperative phase of patient care. It introduces the student to the practice of surgical technology with a focus on those skills necessary for function in the scrub role. This course will be taught as lecture in conjunction with an active hands-on practice laboratory component. Principles will be integrated with practice at all times.

## TO:

Principles and the practice of surgical technology with a focus on those functions that impact the circulating role. Introduction to surgical pharmacology, anesthesia and wound healing physiology. This course will be taught as lecture in conjunction with an active hands-on component in the practice lab.

## TO:

Introduction to each anatomical system with a focused review of pathology in conjunction with those specific procedures performed. The instrumentation and surgical modalities of each specialty will be covered as they relate to the practice of Surgical Technology. Surgical specialties include General, Gastrointestinal, Biliary, Gynecologic, EarNose and Thoracic Surgery, Plastic, and Pediatric Surgery. This course intends to introduce the student to each body system with a focused systems review of pathology in conjunction with those specific procedures performed. The instrumentation and surgical modalities of each Surgical Specialty will be taught as it relates to the practice of Surgical Technology. This course is taught as lecture with a hands-on component as it relates to specialized equipment.

## 6. ST 4500, Surgical Pharmacology

## FROM:

The study of pharmacology relevant to the preparation, distribution and administration of those medications commonly used in the operating room environment. Concepts of intended therapeutic effects, side effects and adverse effects are covered. Course is only open to Surgical Technology majors (code 056).

## E. Department of Tourism and Hospitality

## 1. TAH 7100, Introduction to Professional Food Service

FROM:
An introduction to the various components of the professional food service industry. Subjects will include the history, scope, classification, trends and the role of the customer.

## XI. DELETION OF COURSES

## A. Department of Art

1. ART 3200, Art in Spain

## B. Department of Biology

1. BIO 2500, Introduction to Marine Biology
2. BIO 5400, Botany
3. BIO 5500, Biology of the Invertebrates
4. BIO 7500, The Biology of Nutrition for Culinary Arts

## C. Department of English

1. ENG 4400, The Tragic Vision
2. ENG 4500, The Comic Spirit
3. ENG 6400, Literature of Adventure and Exploration

## XII.INFORMATIONAL GUIDELINES FOR THE COMMITTEE

1. Consistency in form use
2. Correct format for changes
3. Spelling and grammar
4. Electronic copies

## TO:

The study of pharmacology relevant to the preparation, distribution and administration of those medications commonly used in the operating room environment. Concepts of intended therapeutic effects, side effects and adverse effects are covered. Offered only in fall and open only to Surgical Technology majors.

## TO:

An introduction to the various components of the professional food service industry. Subjects will include the history, scope, classification, trends , food service management tools, customer service and basic quantitative reasoning as it relates to food services.

[^0]:    2. Earn a minimum of " $C$ " in all Surgical Technology Courses.
