Committee to act within 30 days of receipt, exercising one of the following options:

- A. Approved (forwarded to Steering Committee)
B. Tabled (Department notified)
C. Not approved (Department notified)

Signature, Chairperson of Curriculum Committee _____ Date: _____

Rationale:

The objective of this Curriculum Data Transmittal Sheet is to change the language of the catalog to reflect the accurate pre or co-requisites of the course, ST 400 in the Surgical Technology Program and to be consistent with the student handbook and website. The following is the catalog description with revisions. Students must have completed BIO 1100 in order to be considered for the program. Nursing 4500 is no longer a degree requirement for the A.A.S. in Surgical Technology. Students must take BIO 12 either prior to or with ST 400 for a fuller understanding of the course material

FROM:

ST 400 - SURGICAL PROCEDURES

Introduction to each anatomical system with a focused review of pathology in conjunction with those specific procedures performed. The instrumentation and surgical modalities of each specialty will be covered as they relate to the practice of Surgical Technology. Surgical specialties include General, Gastrointestinal, Biliary, Gynecologic, Ear-Nose and Thoracic Surgery, Plastic and Pediatric Surgery. This course intends to introduce the student each body system with a focused systems review of pathology in conjunction with those specific procedures performed. The instrumentation and surgical modalities of each Surgical Specialty will be taught as it relates to the practice of Surgical Technology. This course is taught as lecture with a hands-on component as it relates to specialized equipment

Pre/Co-requisites: Bio 1100, NUR 4500

TO:

ST 400 - SURGICAL PROCEDURES
