RE: Change in Prerequisite and Course Description for PSY 2400, Psychological Disorders in Young Children

---

The Department of Behavioral Sciences and Human Services is proposing a change in Prerequisite for PSY 2400, Psychological Disorders in Young Children

**FROM:**

PSY 3000 or PSY 3200

**TO:**

PSY 1100

The Department of Behavioral Sciences and Human Services is proposing a change in Course Description for PSY 2400, Psychological Disorders in Young Children

**FROM:**

Psychological disorders in young children and the practices required to deal with them in educational settings. The problems and needs of children with behavioral, emotional, intellectual, developmental and sensory disabilities are studied. The causes, diagnostic, therapeutic and educational interventions with teaching methods are reviewed for each category based upon principles learned in introductory and developmental psychology courses.

**TO:**

Psychological disorders in young children and the practices required to deal with them in educational settings. The problems and needs of children with behavioral, emotional, intellectual, developmental and sensory disabilities are studied. The causes, diagnostic, therapeutic and educational interventions with teaching methods are reviewed for each category **based upon principles learned in introductory psychology.**

**Rationale for Changes:**

Upon review of the course, it was determined prior knowledge obtained from either PSY 3000, Child and Adolescent Development, or PSY 3200, Human Growth and Development, was not necessary for academic success in the course. The course already incorporates the relevant related topics covered in either PSY 3000 or PSY 3200.
