RE: Change in Course Description for RPE-3600

---

The Department of HPER is proposing a change in Course Description for RPE-3600

**FROM:**

Through clinical case simulations and analysis of videotaped interviews with patients, students will gain competency developing individualized treatment goals for patients. Practice in observation, reporting and writing various types of documentation, including parts of the MDS (Minimum Data Set) Plus and other assessments. Assessment as it applies to Long Term Care and Psychiatric populations will also be covered in the course.

**TO:**

Gain competency in using assessment tools in behavioral observation of clinical case simulations and analysis of video interviews with individuals that have special needs. Explore various Therapeutic Recreation models of practice for use in clinical and community based settings. Learn principles and practices of developing individualized treatment plans based on assessment data. Study methodology for completing an activity analysis and developing a program protocol.

**Rationale for Change:**

The new description reflects the current content of the course and allows the course to better articulate with senior colleges.
