RE: Change in description for Computers and Society (CP 300)

The Department of Mathematics & Computer Science is proposing a change in description for Computers and Society (CP 300):

FROM:

Introduction to computers and how they are used, as well as the impact they have had on society.

TO:

Introduction to computers and how they are used, as well as the impact they have had on society. The course explores the impact computers and information technology have had on society and demonstrates lessons via a variety of software tools and information technology resources. The course material includes coverage of subject matter that will prepare the student for the Google Workspace certification exam.

Rationale for Change: Course is enhanced by the inclusion of appropriate preparation for the relevant credentialing exam. This is in keeping with the University's initiative to provide our students with the recognized micro-credential certification to enhance job readiness.
