To:        Members of the College Council
Date:      May 13, 2019
From:      Michael Sokolow, Secretary
Subject:   Agenda for the Meetings of May 23, 2019

The College Council will meet on Thu. May 23, 2019 in the MAC Playhouse at 3:00 PM.

AGENDA
I. Approval of the minutes of the meeting held on April 4, 2019
II. Reports
   A. President’s Report
   B. Provost’s Report
      1. Presentation of the Revised Guidelines for Tenure and Promotion, approved by
         the College P&B Committee in November 2018. [ATTACHMENT A]
      2. Creation of a new Academic Department of Allied Health, Mental Health and
         Human Services
   C. Students Committee Report
      A representative from the Student Government Association will report on the progress
      and activities of the SGA since the Council approved its new Constitution in Spring
      2018.
   D. Curriculum Committee Report  [Changes in Degree p.1-25; New Courses p.25-
      27; Pathways Approval p.27; Gen Ed Learning Outcomes p.27; Informational items
      p.28-43; Agenda resumes p.43]
      The Curriculum Committee presents the following resolutions for approval. (The
      section numbering reflects those used by CUNY).

CHANGE IN DEGREE REQUIREMENT

- MAT 5500 - Differential Equations 3
- MAT 5600 - Linear Algebra 3
- MAT 9100/BIO 9100 - Biostatistics or 4
- MAT 2200/BA 2200 - Business Statistics 3
- CS 3500 - Discrete Structures 3
- HE 1400 - Critical Issues in Personal Health 4

Select two (2) courses from the following:

CS 13A0 - Advanced Programming Techniques

If not taken for Required Core or Flexible Core:

- MAT 1500 - Calculus I 3
- MAT 1600 - Calculus II 3
CS 1400 - Computer Organization and Assembly Language Programming
MAT 1100 - Finite Mathematics
MAT 3200 - Introduction to Set Theory
MAT 7100 - Applications of Linear Algebra

Select ONLY ONE (1) of the two options below based on initial Mathematics Placement: **

OPTION 1:
If student's initial Mathematics Placement is below MAT 1500:
MAT 1000 - College Trigonometry^
AND
Select one (1) course from the following:
CS 13A0 - Advanced Programming Techniques
MAT 1100 - Finite Mathematics
MAT 3200 - Introduction to Set Theory

OPTION 2:
If student's initial Mathematics Placement is MAT 1500:
Select two (2) courses from the following:
CS 13A0 - Advanced Programming Techniques
MAT 1100 - Finite Mathematics
MAT 3200 - Introduction to Set Theory

**ELECTIVES:** 0 - 6 credits sufficient to total 60 credits for the degree.

**TOTAL CREDITS:** 60

*This program has a waiver to require particular courses in the Common Core, otherwise more than the minimum credits for the degree may be necessary.

^ Depending on Math placement, students may be required to complete MAT 900, or MAT 9A0, and/or MAT 1400 and MAT 1000.
**Consultation with the Mathematics Department is HIGHLY recommended to ensure that the student selects the correct option.**

NEW COURSES

Department of Behavioral Sciences

1. PSY 4100, The Psychology of Immigration

Prerequisite: PSY 1100
Corequisite: None
Pre/Co-requisite: None
Credits: 3
Equate Credits: N/A
Hours: 3

Course Description: This course examines the psychological impact of immigration and how immigrants navigate in American society. This course will provide students with a brief overview of our postcolonial history, cultural genocide in residential schools, the problem with the Model Minority Myth, developmental problems in satellite babies, stigma of mental illness among immigrant communities, the role of culture and food, living as migrant workers, the meaning of citizenship, feeling sage in an age of xenophobia, and the importance of immigrants supporting Black Lives Matter movement. Students who take this class will have a better understanding of the role of immigration and the lived experiences of immigrants, become more civically engaged in their communities, and be more culturally competent.

Department of Mathematics and Computer Science

1. MAT 8A0 Math for Everyday

Prerequisite: For students who are eligible for a corequisite course per CUNY Math placement guidelines and likely to benefit from some developmental support, eligibility determined as follows (1) Score 40-56 on Elementary Algebra portion of the ACCUPLACER CUNY Assessment Test in Math, or (2) passed MAT M100, or (3) passed a Kingsborough workshop culminating in passing the Departmental MAT M100 final exam, or (4) Appropriate corequisite designation.

Corequisite: None
Pre/Co-requisite: None
Credits: 3 plus
Equate Credits: 4 equated credits
Hours: 7
Course Description: This course is designed to provide non-STEM students with critical-thinking and mathematical skills useful in making informed decisions on many aspects of modern life involving quantitative concepts. This course provides the qualitative reasoning skills for informed citizens to understand the world around them and to make choices affecting their lives. Topics include basic probability and risk assessment, financial math, data analysis, solution of elementary algebraic equations, modeling from data in perspective, mathematics of finance, investments and loans, statistical reasoning, probability, and risk assessment. Students who have completed MAT 800 will not receive credit for this course. This course is appropriate for non-STEM major students. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

2. MAT 9A0, Algebra for STEM Majors

Prerequisite: For students who are eligible for a corequisite course per CUNY Math placement guidelines and likely to benefit from some developmental support, eligibility determined as follows (1) Score 40-56 on Elementary Algebra portion of the ACCUPLACER CUNY Assessment Test in Math, or (2) passed MAT M100, or (3) passed a Kingsborough workshop culminating in passing the Departmental MAT M100 final exam, or (4) Appropriate corequisite designation.

Corequisite: None
Pre/Co-requisite: None
Credits: 3 plus
Equated Credits: 5 equated credits
Hours: 8

Course Description: A comprehensive treatment of the following: real numbers, absolute value, integer and rational exponents, polynomial operations, factoring techniques, roots and radicals, linear and quadratic equations, graphing techniques, systems of linear equations, Gaussian elimination. Introduces the study of functions in preparation for the study of pre-calculus and calculus. Students who have completed MAT 900 will not receive credit for this course. This course is appropriate for STEM majors.

3. MAT 3000, Introduction to Mathematical Concepts in Proof

Prerequisite: MAT 1400
Corequisite: None
Pre/Co-requisite: None
Credits: 1
Equated Credits: N/A
Hours: 2

Course Description: This course introduces majors in mathematics to the critical skill of reading and writing formal proofs; and serves as a bridge to the more advanced mathematics they will study at the baccalaureate level and beyond. Expected topics include: basic set theory, logic counting principles, direct proof, contrapositives, contradictions, non-conditionals, counterexamples, induction, relations, functions, and cardinality.

Department of Physical Sciences

PSQ 1001 - Quantitative Skills for Physical Sciences I
PSQ 1002 - Quantitative Skills for Physical Sciences II

PSQ 1004 - Quantitative Skills for Physical Sciences IV
Prerequisite: None

Corequisite: CHM11 Skills Proficient, PHY1100 Skills Proficient, PHY1300 Skills Proficient, PHY1400 Skills Proficient, EGR2200 Skills Proficient, or EGR2300 Skills Proficient determination. Contact Department of Physical Sciences for Skills Proficient information

Pre/Co-requisite: None

Credits: 0

Equated Credits: 1

Hours: 2hrs for 12 weeks for 3 modules of 4 weeks each

Course Description: Composed of co-requisite support modules in various basic math skills required in the physical sciences. This course is non-crediting bearing and is not equivalent to any MAT course.

Skills Modules:
1. Basic skills of algebra required in the physical sciences.
2. Basic skills of geometry required in the physical sciences.
3. Basic skills of trigonometry required in the physical sciences.
4. Basic skills of vector products required in the physical sciences.
5. Basic skills of differential calculus required in the physical sciences.
6. Continuation of basic skills of differential calculus required in the physical sciences.
7. Basic skills of integral calculus required in the physical sciences.
8. Basic skills in series expansion required in the physical sciences.
9. Basic skills in linear algebra required in the physical sciences.
10. Basic skills in differential equations required in the physical sciences.

COURSES FOR PATHWAYS APPROVAL

Department of Behavioral Sciences and Human Services
1. PSY 4100, The Psychology of Immigration, Flexible Core: U.S. Experience in its Diversity (Group B) Accepted, pending changed application

Department of Mathematics and Computer Science
1. MAT 8A0, Math for Everyday, Required Core, Mathematical and Quantitative Reasoning (MQR)

GENERAL EDUCATION LEARNING OUTCOMES

A student will:
1. Gather, interpret, and assess information from a variety of sources and points of view
2. Evaluate evidence and arguments critically or analytically
3. Produce well-reasoned written or oral arguments using evidence to support conclusions
4. Apply quantitative reasoning skills to solve problems
5. Demonstrate Knowledge of Human Cultures and the Physical and Natural World through the study of:
   • World Cultures and Global Issues
   • U.S. Experience in its Diversity
   • Creative Expression
   • Individual and Society
   • Scientific World
6. Describe civic engagement and its importance in a global society
* * * THE FOLLOWING ARE INFORMATIONAL ITEMS FOR COLLEGE COUNCIL * * *

CHANGES IN EXISTING COURSES

Department of Art
Change: Course Title
1. ART 5500, Design I
   FROM: Design I
   TO: Design Foundations
2. ART 5600, Design II
   FROM: Design II
   TO: 3-Dimensional Design
3. ART 7400, Experimental Typography
   FROM: Experimental Typography
   TO: Typography

Department of Business
Change: Prerequisite
1. BF 3500 Textile and Non-Textile Analysis
   FROM: Prerequisite(s): RM 3100 or BF 3100
   TO: Prerequisite(s): RM 3100 or BF 3100. RM 3100 or BF 3100 Not required for Fashion Design Majors

Department of Health, Physical Education, and Recreation
Change: Course Title and Description
1. RPE 1100, Introduction to Recreation
   FROM: Introduction to Recreation
   TO: Introduction to Recreation and Physical Education
2. (No changes mentioned)

28
Historical and philosophical foundations of recreation and leisure, study of institutions providing recreation services, and the socio-economic factors which influence the growth and development of recreation.

2. RPE 1200, Leadership in Recreation and Physical Education

FROM: Leadership in Recreation and Physical Education

TO: Leadership in Recreation, Physical Education, and Sport Management

Leadership, supervision, group dynamics, and proper teaching techniques in leisure services. Additional topics include conflict resolution, behavior management, values and ethics, and risk management.

3. RPE 1400, Outdoor Recreation

FROM: Outdoor Recreation

TO: Camping and Outdoor Recreation

Trends in outdoor recreation, place of the recreation leader in outdoor programs, scope and extent of programs in conservation, camping, aquatics and nature. Weekend camping trip required.

4. RPE 7000, Methods of Teaching Fitness and Recreation Activities

Explore trends in outdoor recreation, the role of the recreation leader, the scope and extent of programs in conservation, camping, and nature. A weekend 24 hour faculty supervised camping and hiking trip is required, as well as participation in two 4 hour training and preparation sessions, prior to camping outdoors. Small group work is organized to accomplish assignments. Individual journals and a final paper reflecting their experiences are required.
FROM: 
Methods of Teaching Fitness and Recreation Activities

TO: 
Introduction to Teaching Methods in Physical Education

FROM: 
Develop techniques, methods, skills and philosophy required to teach fitness and recreation activities.

TO: 
Develop and execute a lesson plan for an activity, using the New York State Learning Standards for Physical Education, while receiving feedback from peers and instructor. Examine curriculum and instruction in physical education, the role and function of professional organizations, and develop a personal philosophy of physical education.

Change: Course Title, Description and Prerequisite:
5. RPE 3200, Organization and Administration of Recreation Programs

FROM: 
Organization and Administration of Recreation Programs

TO: 
Organization and Administration of Recreation, Physical Education, and Sport Management

FROM: 
Underlying principles for effective recreation programming, considers operation of recreation facilities, including budget, public relations, records, reports, equipment and evaluation.

TO: 
Examine the principles of organization and administration of recreation, physical education, sport program and facilities. Focuses on developing effective programming inclusive of: a mission statement/goals/objectives, needs assessment, facility planning, program implementation and evaluation, learn effective communication, and address budget, public relations, risk management/safety, and personnel/supervision issues. Requirement to attend two college wide events and evaluate one as an operations manager.

FROM: 
Prerequisite(s): RPE 1100, RPE 1200, RPE 1600, and RPE 3100. For Program Majors only.
Prerequisite(s)/Corequisite(s): RPE 9152

TO: 
Prerequisite(s): RPE 1100, RPE 1200, and RPE 3100. RPE 3100 Not required for Sports Management students
Prerequisite(s)/Corequisite(s): RPE 9152
6. RPE 9152, Field Experience in Physical Education, Recreation, and Recreation Therapy

FROM:

Field Experience in Physical Education, Recreation, and Recreation Therapy

TO:

Field Experience in Physical Education, Recreation/Recreation Therapy, Sport Management

FROM:

Students are assigned to supervised field work in a variety of community recreation agency settings. One-hour seminar, field reports and class discussions of the experiences are included.

TO:

Experience and complete 100 hours of supervised fieldwork in either a public or private school physical education program, community recreation setting, or therapeutic recreation program. A weekly one-hour seminar covers diversity, leadership, ethics and values, assessment, and development of resume/cover letter. Works in small teams to develop, implement, and evaluate a student run activity. Maintain reflective logs of experiences throughout the semester.

FROM:

Prerequisite(s): RPE 1100, RPE 1200, RPE 1600, and RPE 3100. For Program Majors only.

TO:

Prerequisite(s): RPE 1100, RPE 1200, and RPE 3100. RPE 3100 Not required for Sports Management students

Prerequisite(s)/Corequisite(s): RPE 3200

Change: Course Description

7. HPE 1500, Fitness Assessment and Prescription

FROM:

Principles of physical fitness are taught. Students undergo a battery of fitness tests and develop a personal fitness program.

TO:

Learn principles of physical fitness. Complete a variety of fitness tests and create a personal fitness program including aerobic and anaerobic activities. Develop muscular strength and endurance; improve body composition, cardiovascular fitness, and flexibility. Learn the variety of tools/equipment to achieve physical fitness.

8. PEC 200, Walk, Jog, Run

FROM:

<tr>
<td>TO:</td>
<td>Learn vigorous calisthenics exercises with dance steps to music to improve cardiovascular endurance and muscle toning. Apply aerobic activities for health and wellness, boost mood, burn calories, and improve body composition and flexibility.</td>
</tr>
</tbody>
</table>
13. RPE 1300, Social Recreation

FROM:

How to conduct, plan and program social recreation activities in camps, centers, clubs, institutions and playgrounds. Under supervision, leadership is developed and performance evaluated.

TO:

Learn to assess, plan, implement, and evaluate an inclusive social recreation activity in camps, recreation centers, clubs, healthcare facilities, and playgrounds. Under supervision, opportunities are provided to develop leadership skills in recreation. Develop, implement, and evaluate an activity protocol. Learn special even planning, group dynamics, and effective teaching techniques.

14. RPE 3100, Therapeutic Recreation for Individuals with Disabilities I

FROM:

The philosophy and history of Therapeutic Recreation (TR). The physical, social and psychological barriers to access as well as the principles of normalization and inclusion. An emphasis on the TR process and provision of a continuum of services based on clients’ needs. Students learn how to adapt activities (e.g., aquatics, arts and crafts, dance) to meet the needs, interests and abilities of individuals with specific disabilities.

TO:

Learn the philosophy and history of Therapeutic Recreation (TR). Explore accessibility barriers as well as the principles of normalization and inclusion for individuals with special needs. An emphasis on the TR process and provision of a continuum of services based on clients’ needs. Examine principles of adapting activities and environments to meet the needs, interests and abilities of individuals with physical and/or development disabilities. Attend one filed observation in a setting for individuals with special needs.

15. RPE 3500, Therapeutic Recreation for Individuals with Disabilities II

FROM:

The biopsychosocial approach to understanding the later part of the lifespan and the contribution leisure and recreation make to quality of life. A continuum of services in a range of settings is examined. Students acquire an understanding of normal and abnormal psychological and emotional development. Students learn how to plan recreation programs to meet the needs of the elderly and those with emotional/psychological disorders.

TO:

Examine the biopsychosocial approach to the later part of the lifespan and the contribution leisure and recreation make to quality of life. Acquire an understanding of normal and abnormal psychological and emotional development. Learn to plan recreation programs that meet the needs of the seniors and those with emotional/psychological disorders in both clinical and community settings. Attend one clinical field observation.
16. RPE 3600, Assessment Process in Therapeutic Recreation

FROM:

Through clinical case simulations and analysis of videotaped interviews with patients, students will gain competency developing individualized treatment goals for patients. Practice in observation, reporting and writing various types of documentation, including parts of the MDS (Minimum Data Set) Plus and other assessments. Assessment as it applies to Long Term Care and Psychiatric populations will also be covered in the course.

TO:

Gain competency in using assessment tools in behavioral observation of clinical case simulations and analysis of video interviews with individuals that have special needs. Explore various Therapeutic Recreation models of practice for use in clinical and community based settings. Learn principles and practices of developing individualized treatment plans based on assessment data. Study methodology for completing an activity and developing a program protocol.

17. RPE 4000, Sport and American Society

FROM:

The development of selected sports as well as related contemporary and controversial issues in America approached from a sociological point of view. Additional topics include economic and media influences, and future trends.

TO:

Explore the significant interrelationship of sport in American society and internationally. Apply sociological theories of functionalist, conflict, critical, and interactionist to study sport in society. Discuss contemporary and controversial issues inclusive of gender equity, drug use, youth sport, and race. Study the symbiotic relationship of sport, business, economy, and media.

18. RPE 4600, Facilities Planning in Sports

FROM:

The principles, guidelines and recommendations for planning, constructing, using and maintaining sports facilities.

TO:

Learn principles, guidelines and recommendations for planning, constructing, using and maintaining sports facilities. Explore financing, public and private partnerships, Americans with Disabilities Act, and risk management in sport facilities. Study crowd and emergency management, facility alcohol plan, concession and box office operations.
1. MAT 4A0, Math and Quantitative Reasoning

This course enhances students’ quantitative reasoning and mathematical skills useful in solving problems in mathematics and in other fields of study. Students learn to communicate solutions to mathematical problems in written and oral form. Topics include mathematical modeling, financial mathematics, units, percentages and statistical reasoning.

Students who have completed MAT 500 will not receive credit for this course. This course is intended for Non-STEM majors. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

2. MAT 800, Practical Math for Today’s World

Critical-thinking and mathematical skills useful in making informed decisions on many aspects of modern life involving quantitative concepts. Topics include logical analysis and inference, mathematics of finance, statistical reasoning and probability.

Students who have completed MAT 8A0 will not receive credit for this course. This course is intended for Non-STEM majors. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

3. MAT 900, College Algebra

A comprehensive treatment of the following: real numbers, absolute value, integer and rational exponents, polynomial operations, factoring techniques, roots and radicals, linear and quadratic equations, graphing techniques, systems of linear equations, and Gaussian elimination. Introduces the study of functions in preparation for the study of pre-calculus. Demonstration of proficiency in subject matter via departmental final exam is required for successful completion.

Students who have completed MAT 9A0 will not receive credit for this course.
Change: Prerequisite and Course Description

4. MAT 500, Introduction to Mathematical Thought

FROM:
This course emphasizes quantitative reasoning skills for informed citizens to understand the world around them. Topics include basic probability, data analysis, solution of elementary Algebraic equations, word problems and modeling data. This course is intended for Non-STEM majors. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

TO:
This course emphasizes quantitative reasoning skills for informed citizens to understand the world around them. Topics include basic probability, data analysis, solution of elementary Algebraic equations, word problems and modeling data. Students who have completed MAT 4A0 will not receive credit for this course. This course is intended for Non-STEM majors. This course is NOT intended for students planning on taking MAT 900 - College Algebra.

FROM:
Prerequisite(s): (1) Score of 40-56 on the Elementary Algebra portion of the ACCUPLACER CUNY Assessment Test in Math or (2) passed MAT M100 or (3) passed a Mathematics Department workshop culminating in passing the Departmental MAT M100 final exam.

TO:
Prerequisite(s): For students who are eligible for a corequisite course per CUNY Math placement guidelines and likely to benefit from some developmental support, eligibility determined as follows: (1) Score of 40-56 on the Elementary Algebra portion of the ACCUPLACER CUNY Assessment Test in Math or (2) passed MAT M100 or (3) passed a Mathematics Department workshop culminating in passing the Departmental MAT M100 final exam or (4) Appropriate corequisite designation.

Change: Prerequisite

5. MAT 1000, Trigonometry

FROM:
Prerequisite(s): MAT 900

TO:
Prerequisite(s): MAT 900 or MAT 9A0

6. MAT 1100, Finite Mathematics

FROM:
Prerequisite(s): MAT 900

TO:
Prerequisite(s): MAT 900 or MAT 9A0

7. MAT 1300, Survey of Mathematics and Computer Concepts

FROM:

TO:
8. MAT 19A0, Statistics and Probability in Today's World

FROM: MAT 19A0
TO: MAT R300

Prerequisite(s): (1) Successful completion of the Elementary Algebra portion of the ACCUPLACER CUNY Assessment Test in Math and a score of 55 or higher on the College Level Math portion of the ACCUPLACER CUNY Assessment Test in Math, or (2) Successful completion of Pre-Algebra and a grade of 45 or higher on the Elementary Algebra portion of the CUNY Mathematics Skills Test (COMPASS), or (3) Successful completion of Pre-Algebra and successful completion of a Kingsborough Math MAT M200 workshop culminating in a grade of 88 or higher on the CEAFE exam, or (4) Successful completion of Pre-Algebra and an "S" grade in MAT M200 taken at Kingsborough; or (5) MAT R300

9. BIO/MAT 9100, Biostatistics

FROM: MAT 900
TO: MAT 900 or MAT 9A0

Change: Prerequisite and Credit/Hours

10. MAT 1400, Analytic Geometry & Pre-Calculus

FROM: 4 credits, 4 hours

TO:
3 credits, 4 hours (2 hours lecture, 2 hours lab)

16. MAT 2100, Calculus III

FROM:
4 credits, 4 hours

TO:
3 credits, 4 hours (2 hours lecture, 2 hours lab)

Department of Physical Sciences
Change: Pre-/Co-requisites:

1. CHM 100, Review of General Chemistry

FROM:
Prerequisite(s)/Corequisite(s): MAT 900

TO:
Prerequisite(s)/Corequisite(s): MAT 900 or MAT 9A0, or Department Permission

2. CHM 200, Introduction to Green Chemistry

FROM:

TO:
3. PHY 100, Preview of General Physics

FROM: Prerequisite(s)/Corequisite(s): MAT 900

TO: Prerequisite: MAT 900 or MAT 9A0

4. PHY 1300, Advanced General Physics I

FROM: Prerequisite(s)/Corequisite(s): MAT 900

TO: Prerequisite(s)/Corequisite(s): NONE

5. PHY 1400, Advanced General Physics II

FROM: Prerequisite(s)/Corequisite(s): MAT 1500

TO: Prerequisite(s)/Corequisite(s): MAT 1500; OR PHY 1300 Skills Proficient; OR Department Permission. Contact Department of Physical Sciences for PHY 1300 Skills Proficient information

6. CHM 1100, General Chemistry I

FROM: Prerequisite(s): MAT 900 or a passing score on the ACCUPLACER CUNY Assessment Test in Math or completion of developmental mathematics and either CHM 100 or CHM 200, or passing score on chemistry exemption exam. Contact Department for Chemistry Exemption Exam information.

TO: Prerequisite(s): MAT 900 or MAT 9A0 and CHM 100; OR CHM 1100 Skills Proficient; OR Department Permission. Contact Department of Physical Sciences for CHM 1100 Skills Proficient information.

7. CHM 1200, General Chemistry II

FROM: 

TO: 
8. CHM 3100, Organic Chemistry I
FROM:
Prerequisite(s): CHM 1100
TO:
Prerequisite: CHM 1100; OR Department Permission

9. CHM 3200, Organic Chemistry II
FROM:
Prerequisite(s): CHM 1200
TO:
Prerequisite: CHM 1200; OR Department Permission

10. EPS 3100, Meteorology
FROM:
Prerequisite(s): CHM 3100
TO:
Prerequisite: CHM 3100; OR Department Permission

11. EPS 3200, Oceanography
FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math or Department permission
TO:
Prerequisite: CUNY English & Math Proficient; OR Department Permission

12. EPS 3300, Physical Geography
FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math or Department permission
TO:
Prerequisite: CUNY English & Math Proficient; OR Department Permission

13. EPS 3500, Introduction to Astronomy
FROM:
TO:
14. EPS 3600, Planetology: A Trip Through the Solar System

**FROM:**

Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math or Department permission

**TO:**

Prerequisite: CUNY English & Math Proficient; OR Department Permission

15. EPS 3800, Introduction to Earth Science

**FROM:**

Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math or Department permission

**TO:**

Prerequisite: CUNY English & Math Proficient; OR Department Permission

16. PHY 1100, General Physics I

**FROM:**

Prerequisite(s): MAT 1400

**TO:**

Prerequisite(s): NONE

Prerequisite(s)/Corequisite(s) MAT 1400; OR PHY 1100 Skills support; OR Department Permission. Contact Department of Physical Sciences for PHY 1100 Skills support information.

17. PHY 1200, General Physics II

**FROM:**

Prerequisite(s): PHY 1100

**TO:**

Prerequisite(s): PHY 1100 OR Department Permission

18. PHY 4200, Ideas of Modern Physics

**FROM:**

Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math

**TO:**

Prerequisite: CUNY English & Math Proficient; OR Department Permission
19. SCI 3700 - Developments in the Physical Sciences (with Laboratory)

FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math

TO:
Prerequisite: CUNY English & Math Proficient; OR Department Permission

20. SCI 5100, Physical Sciences and the Environment (with Laboratory)

FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math

TO:
Prerequisite: CUNY English & Math Proficient; OR Department Permission

21. SCI 7000 - The Science of Nutrition (with Laboratory)

FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading, Writing, and ACCUPLACER CUNY Assessment Test in Math

TO:
Prerequisite: CUNY English & Math Proficient; OR Department Permission

Change: Prerequisite and Corequisite:

22. EGR 2100, Engineering Design

FROM:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading and Writing and MAT 900
Corequisite(s): MAT 1400

TO:
Prerequisite(s): Passed, exempt, or completed developmental course work for the CUNY Assessment Tests in Reading and Writing and MAT 900 or MAT 9A0
Corequisite: NONE

Prerequisite(s)/Corequisite(s): MAT 1400; OR Department Permission

23. EGR 2200, Introduction to Electrical Engineering

FROM:
Prerequisite(s): MAT 2100 and PHY 1400

TO:
Prerequisite: PHY 1400 OR Department Permission
Corequisite(s): MAT 5500

Corequisite(s): NONE

Corequisite(s): CS 1200

Corequisite(s): NONE

COURSES WITHDRAWN

Department of Mathematics and Computer Science

1. MAT 600, Mathematics of Finance

E. Strategic Planning Committee Report

The Strategic Planning Committee presents the following resolution:

WHEREAS, The Strategic Planning Committee, as part of a periodic review of the Kingsborough Community College Mission Statement, has gathered input from the College community and updated the Statement to reflect those ideas,

And WHEREAS, Based upon this input, the Committee has formulated an updated Vision Statement and a new Statement of Values,

BE IT THEREFORE RESOLVED, That the following will be the Kingsborough Community College Statements of Mission, Vision, and Values:

MISSION STATEMENT:

Kingsborough Community College responds to the needs of its diverse community by offering high quality, affordable, innovative, student-centered programs of study that prepare graduates for transfer and the workforce. The college strives for equity and
seeks to provide each student with the appropriate resources and supports to foster success.

Institutional Learning Goals:

To earn a degree, students are expected to complete the general education requirements of CUNY’s Pathways, as well as the course of study in a major discipline. Kingsborough aspires for all graduates to achieve the following institutional learning outcomes in the course of these studies:

1. Critical thinking: The student will identify, analyze, and solve problems in a variety of situations and areas of study.

2. Global perspective: The student will understand similarities and differences among diverse cultural and historical perspectives as well as individual civic responsibilities and democratic engagement.

3. Communication: The student will speak, read, write, and/or listen effectively.

VISION:

Kingsborough Community College encourages students to take an active role in their own learning. The College strives for high quality and continuous improvement in all areas related to student learning, including academic programs, teaching, student services, administration and support, and the campus environment.

VALUES:

Respect - Civility, acceptance, appreciation, and support of individual differences

Diversity - The proactive fostering of greater inclusion and ultimately equity at every level of college life

Integrity - Fair and ethical standards in all policies, procedures, and practices

Excellence - High quality teaching, student services, administration, and community engagement; and high standards for student achievement

Accountability - Taking responsibility for our actions and outcomes

Innovation - Creative thinking and approaches that enhance learning and support continuous improvement

F. Instructional Committee Report

The Instructional Committee presents the following two resolutions:

1. Proposed resolution re: Adding Standardized Alphanumeric Grading Equivalences Language to the College Catalog
WHEREAS, currently there is no statement of the alphanumeric grading equivalences at Kingsborough Community College; and

WHEREAS, the Instructional Committee of the College Council believes that a statement of the alphanumeric grading equivalences at Kingsborough Community College would be beneficial to the students and the faculty in terms of uniform expectations and grading norms;

BE IT THEREFORE RESOLVED, that the following alphanumeric grading equivalencies be inserted into the college catalog, along with a statement about the grade of D- and a statement about exceptions concerning departments or programs for which external accreditation criteria determine alphanumeric grading equivalences:

The college interprets alphanumeric grading equivalences, with certain exceptions noted below, according to the following general guidelines:

<table>
<thead>
<tr>
<th>Alpha/numeric equivalences:</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+ 97-100</td>
</tr>
<tr>
<td>A  93-96</td>
</tr>
<tr>
<td>A- 90-92</td>
</tr>
<tr>
<td>B+ 87-89</td>
</tr>
<tr>
<td>B  83-86</td>
</tr>
<tr>
<td>B- 80-82</td>
</tr>
<tr>
<td>C+ 77-79</td>
</tr>
<tr>
<td>C  73-76</td>
</tr>
<tr>
<td>C- 70-72</td>
</tr>
<tr>
<td>D+ 67-69</td>
</tr>
<tr>
<td>D  60-66</td>
</tr>
<tr>
<td>F  0-59</td>
</tr>
</tbody>
</table>

It should be noted that the above alphanumeric equivalences apply to final course grades; instructors may choose to assign a D- grade to particular assignments, exams, or other elements of coursework, but the college does not permit the use of a D- grade for the final course grade.

Departments or programs with external accreditation criteria reserve the option of publishing department- or program-specific guidelines. Additionally, individual instructors reserve the option of publishing course-specific guidelines.
2. Proposed resolution re: Adding Explanatory Language regarding the Grade of C- to the Catalog

WHEREAS, currently there is no statement in the college catalog explaining the placement of the grade of C- alongside grades in the D range;
WHEREAS, the Instructional Committee of the College Council believes the placement of C- grade is explained by the fact that C- grades do not transfer out and that students earning grades of C- will likely need to retake those courses when they transfer out; and
WHEREAS, the Instructional Committee of the College Council believes that adding a statement explaining the placement of the grade of C- alongside grades in the D range would be beneficial to the students and the faculty in terms of uniform expectations and grading norms;

BE IT THEREFORE RESOLVED, that the following explanatory statement be inserted into the college catalog, just after the statement which reads:

A course in which a grade of “C-” or below was earned may be repeated only if a more advanced course in that discipline has not been completed. Students who earn a “C” grade or better in any course offered at the college MAY NOT REPEAT that course.

(http://catalog.kingsborough.edu/content.php?catoid=4&navoid=257#grades)

The explanatory statement should read as follows:

The grade of C- is placed alongside grades in the D range to alert students to the fact that while C- is a passing grade, courses in which students earn the grade of C- typically do not transfer, and students typically need to retake these courses upon transfer to the another institution.

III. New Business
Meeting II: First meeting of the 2019-2020 College Council

A. The Council will nominate and elect one faculty or staff member to the Committee on Committees (seat currently held by Prof. Anna Rozenboym).

B. The Council will nominate and elect up to three Student members to the Committee on Committees

C. The Committee on Committees will meet to (a) select officers, and (b) to confirm the standing committee assignments for new Council members

D. The membership of the individual standing committees will be announced, and each standing committee will meet very briefly to elect its officers for the 2019-2020 academic year.
