

HIV Prevention Services

As COVID-19 continues to impact New York City, New Yorkers should stay home and minimize contact with others to reduce the spread.

If you need immediate HIV services, PlaySure Network and other clinics are still working together to ensure that all New Yorkers have access to services such as: HIV and STI testing, HIV care and treatment, pre-exposure prophylaxis (PrEP) and post-exposure prophylaxis (PEP).

As the COVID-19 situation continues to evolve, PlaySure Network and other clinical sites might modify HIV prevention services. Please contact each agency prior to any travel for appointments, hours, and services.

For more information about COVID-19, visit nyc.gov/coronavirus.

A summary of NYC-supported sites is listed below (as of June 15, 2020):

Bronx

Agency	Clinical Services					Phone Number	Hours of Operation	Address
