

Math Supplemental Instruction Workshop

-Frequently Asked Questions-

1. What is the Math Supplemental Instruction (S.I.) Workshop?

-The math (S.I.) workshop is a program specifically designed for students who have failed Math 1 or Math 2 multiple times. Instead of taking the traditional Math M1 or M2 class, students enroll in a workshop. At the completion of the math workshop, the student will take over the portion of the exam they previously failed.

2. Who is eligible for the workshop?

-Students who took either Math M1 or M2 at least two times.

3. How can I sign up for the workshop?

-A Math M1 or M2 request form must be filled out, which is available in **L-605**.

4. Am I guaranteed a seat once I fill out the request form?

-No, seating is limited and offered on first come first serve basis.

5. When is the workshop offered?

-The workshop is offered throughout the academic year (fall, winter, spring & summer).

6. Can I be enrolled in the class and a workshop at the same time?

-No, once eligible for the workshop, you don't need to be in a traditional class. The workshop substitutes your traditional class for the semester. Seats for each workshop are limited; therefore you can only take one seat, in one workshop.

7. What happens after I complete my workshop hours?

-The director of the program will set you up to re-test. You take the same exit exam as those who are enrolled in a regular Math course.

8. How is the workshop set up?

-Students are placed in a small group setting.

9. Is attendance mandatory?

-Yes, more than 2 absences will result in the student's dismissal from the program. Your attendance is tracked weekly. It is important to stay in touch with us regarding unexpected emergencies ([718-368-5118](tel:718-368-5118)).

10. What happens after I pass the final?

-It takes a week to process the exam scores. Once the grades are in the system, the student has to call the Cuny First help center at [718\) 368-6551](tel:718-368-6551) to get permission to register for the next Math level. When speaking with the help center the student must inform them that he/she completed the Math class through a workshop.

11. Do I have to pay for the workshop?

-No, the workshop is free. It is subsidized by a Grant and does not count towards full time or part time status.

12. How come the workshop is not visible on Cuny First?

-Since the workshop is not an actual class it does not show up on your CUNY first Schedule.
