COURSE OUTLINE AND TRANSFER REQUIREMENTS:

The RN to BS in Nursing program is evidence-based, drawing on the *Essentials of Baccalaureate Education for Professional Nursing Practice* developed by the American Association of Colleges of Nursing (AACN). The program also incorporates the competencies developed through the national Regionally Increasing Baccalaureate Nurses (RIBN) initiative at CUNY, which is based on the work of the Institute of Medicine (IOM), Quality & Safety Education for Nurses (QSEN) initiative and the Oregon Consortium for Nursing Education (OCNE). The program is designed for the working RN student and gives elective credit for national nursing certification. The program consists of a rich distribution of Liberal Arts & Sciences and Nursing courses.
