

KCC \$ENSE

Everything You Didn't Know Series

Career Development & Experiential Learning

Thursday October 1 at 1pm

Hosted by the Center for Career Development & Experiential learning, this workshop will cover the importance of planning for your career, as well as job search tools and resources available to you as KCC students. You will have an opportunity to ask questions relating to your personal career goals.

For example:

- Did you know KCC Career Development Center assists all students with more than resume writing and job interview preparation?
- Did you know KCC Career Development Center has a weekly newsletter, the "Career Buzz", that shares recent internships, jobs, and career tips via email?
- Did you know you most students go to college so they can be **employed after graduation**? However, many of them do not use the Career Development Center which is dedicated to supporting this goal.
- Did you know 40% of U.S. college students feel very or extremely prepared for their future career?

Join us to learn more and get answers to your questions.
